3 to 4 foot shrubs, postpaid

SS 149 **2 for \$3.50**

Golden Giant Apricot

(PLANT PATENT APPLIED FOR)

Fruit is pictured actual size

F 25 Golden Giant originated in the orchard of Dave Moore, Grand Junction, the famous fruit section of

western Colorado. Several years ago Dave planted some of our Sungold peaches. Six years ago he wrote us that we had the best peach in America but he had the best apricot. We immediately went out there and every year since we have visited with Dave and his fine family.

The true story of Golden Giant, its tremendous annual crops, its huge size, its marvelous flavor and sweetness, its rich color, its shipping quality, its hardiness and vigor, calls for a Shakespeare. We can simply tell you that the size is immense, 2 inches across and more than 2 inches long. The color is a golden orange with light blush. It is the finest apricot we ever ate, the sweetest, most delicious flavor. Moreover even if picked fairly green it develops this fine flavor where other apricots taste insipid when picked green. It makes the finest sauce and preserves you ever tasted and is extra fine for

F 26 Superb—This fine variety originated in Kansas and has been largely planted in the middle west. Hardy, productive. Fruit is medium large, orange-yellow, flesh firm, high quality. Fine for eating, sauce, preserves and pies.

F 23 Perfection—The fruit is large, beautiful and delicious. It ripens evenly and is a good keeper. Flesh is firm so that even if picked nearly ripe, it can be shipped. Hardy, vigorous grower, heavy bearer.

freezing. If you selected the largest fruits, you could hardly get 6 in a quart jar. The flesh is a rich golden color, so tender and sweet and absolutely stringless. Free-stone, of course, but we think the flavor is even richer if canned with the pits in.

Golden Giant is a heavy, annual bearer, never missing a crop at Grand Junction except one year when it froze while the fruit was marble size. Dave says that it is more frost resistant because it has borne when other varieties failed (and Dave has many kinds in his orchard).

Golden Giant is sold ONLY BY THE INTER-STATE NURSERIES. Introduced by us last spring, we are selling it at a price so that thousands, all over America, can find out how fine it is. The tree itself is attractive enough to plant in your yard. It is shapely with reddish-brown bark, large rich green leaves, lovely flowers and then the delicious fruit. You who have eaten shipped-in apricots picked when green, cannot imagine how truly delightful is Golden Giant. Order today to make sure that you get yours this spring.

Golden Giant Prices

	Each	3 for	6 for	12 for
5 to 6 feet, not postpaid . . .	\$2.50	\$7.20	\$14.10	\$27.00

What You Should Know about Inter-State Nurseries

First of All, the Soil—Ever look at Hamburg on the map? You will notice it is near the center of the United States. *Did you settle there by accident? Or on purpose?*

The answer is: on purpose. We looked around for a long time, checked many locations, and finally picked Hamburg for one big, overwhelmingly important reason—THE SOIL.

If you ever come out to Hamburg, pick up a handful of this dirt, and you will see what we mean. It is the kind of soil the geologists call loess (lō-ēs)—a word

from the same original as “loose.” And that is exactly what it is—rich, soft, loose. Plants grown in it develop the strong, healthy root systems that make them thrive when transplanted to your yard or garden. It is a very rare type of soil, occurring in only a few places throughout the entire world.

And the Climate—Here at Inter-State we have a good long growing season—time to make the husky plants you want to set out. Neither too hot nor too cold—but *vigorous!* Plants, like people, do best in a climate that is “not too much ear-muffs, not too much siesta.”

L. R. (Les) SJULIN

CARL O. (Billy) SJULIN

D. L. O. (Dave) SJULIN

L. R. SJULIN (“LES”) is responsible for the planning, writing, illustrating and production of the colorful catalogs that enable you to plan your planting at your leisure in your own home.

CARL O. SJULIN (“Billy the Nurseryman”) prepares our broadcasting programs on nearly 50 radio stations as well as directing our advertising campaign in the magazines and newspapers.

D. L. O. SJULIN (“DAVE”) manages the business offices and directs a large staff of trained workers who acknowledge, record and ship your orders at the proper planting time to every state.

Who Built Inter-State? Friends, if you imagine for one moment that we think the whole answer is “the Sjulins,” let us tell you that we think this only a small part of the story. Sometimes, when we drive over the 1600 acres of the nurseries here, we feel proud. Proud of what Inter-State has grown up to be—and immensely grateful. For we know that Inter-State owes just about everything it is to its great army of customers.

The People of America. The real builders of Inter-State are people scattered over the whole face of America. All the way from the tip of Maine to Southern California. All the way from Puget Sound to the Florida Everglades. People who have loved their homes and wanted to make them beautiful. Backyard gardeners. Farmers setting out orchards and berry patches—who wanted the best, because they knew the real profit is always in the best. Growers of roses and flowering plants—some of them wealthy, but most of them people who have had to spend carefully for the beautiful things in our catalogs. There are the people whose faith and support built Inter-State Nurseries—and this we do not allow ourselves to forget.

How It All Started. Inter-State, you may be interested to know, began business in 1919 as wholesale growers of nursery stock. We grew fields of fine plants and supplied them to retailers. Our customers included distributors whose names suggested superb quality in every part of the country. But along came 1929 and the years of depression that followed. With the retail companies unable to distribute, wholesalers were left with fields of prime stock. Some thought there was nothing to do but wait for better times. But Inter-State thought differently—

A Plan Takes Shape. This choice stock of plants and trees we had, as fine as any in America—certainly there were, somewhere, people who would want these things if they knew about them. Surely they would respond to fair prices, and to good treatment. But how could we reach them? The way, of course, was to

go to the public direct. So we decided to become retailers, and in 1931 we issued our first catalog.

What People Liked. It took courage to take the step, but our decision to enter the retail business turned out to be one of the wisest things we have ever done. Adversity turned out to be a blessing in disguise. People liked the things we shipped them. “Those roses you delivered,” they would write, “have the most magnificent roots we have ever seen.” Then would come another letter telling us how well the plants were blooming—and often enclosing the names of neighbors who wanted our catalog. (We learned the power of the voice that tells good news across the back fence.)

“That Something Extra.” Our early customers found that they could count on what we told them. They could tell, of course, that we were enthusiastic about our goods. But what pleased them most, we think, was the discovery that what we delivered was generally at least a little better than they expected. Our customers came to look to us for extra quality; for fair prices; and for alertness in searching out new varieties—being careful that they are good as well as new. They were impressed by our practices—like selling only fruit trees budded from proven bearing trees.

They learned that the big question at Inter-State is not, Can it be sold?—but, Will this product give the customer the permanent satisfaction he has a right to expect? **Please continue to count on “that something extra” in value and quality.**

This, then, is a short story about Inter-State Nurseries, a national institution which has helped make America More Beautiful, More Fruitful. The proudest possessions we have are the thousands of voluntary letters telling about the greater enjoyment, better health, more beauty and the satisfaction of making homes better places in which to live.

AMERICA'S LARGEST DIRECT-TO-YOU NURSERIES

Because we grow and sell direct-to-you more nursery stock than any other nursery, we can sell first quality stock at reasonable prices. Our soil is rated the finest in all America for growing nursery stock. It produces wonderful roots and fine tops. If you have never planted any of our seeds, order some this year. They are guaranteed to grow.

CENTRALLY LOCATED. We are located near the geographical center of the United States, with railroad facilities that enable us to ship promptly in all directions, North, South, East and West.

SALES TAX. The Iowa law requires us to collect a sales tax of 2% on all orders sent to us **BY PEOPLE LIVING IN IOWA.** Iowa customers will please add this amount to their orders. **BUT PEOPLE NOT LIVING IN IOWA DO NOT SEND ANY SALES TAX.**

IMPORTANT NOTICE

When ordering, please write down the Catalog Number shown by each variety and collection. If you order both Seeds and Nursery Stock, please be sure to **PUT YOUR SEED ORDER ON A SEPARATE SHEET OF PAPER.** Write your full name and address on both Seed and Nursery orders.

NURSERY STOCK IS SHIPPED AT PROPER PLANTING TIME

Nursery Stock and Seeds are not shipped together. Seeds are shipped at once. Nursery Stock is shipped at proper planting time. We are equipped so that we can start shipping to southern states early in the year. As the season advances, we keep shipping farther north until in May we are shipping to the most northern states.

INTER-STATE NURSERIES, INCORPORATED
HAMBURG, IOWA

HELPFUL PLANTING GUIDE *Free!*

With every nursery stock order, we send Free a 24-Page Planting Guide. It tells in a clear, simple way how to plant so that even if you have never done any planting, you can have success. It tells, also, how to prune, water, care for plants over winter, how far apart to plant, etc.

WE PAY POSTAGE

Please note that most items in this catalog are **DELIVERED TO YOU, POSTPAID.** Some Fruit and Shade Trees are too large to go by parcel post. They are shipped by express, you pay the express charges.

In some orders, there are trees which must go by express and also some stock which would go parcel post. In order to avoid making two separate shipments, we send the entire order by express. For this privilege, we include extra stock which has a greater value than the additional express charges amount to.

Inter-State's Guarantee

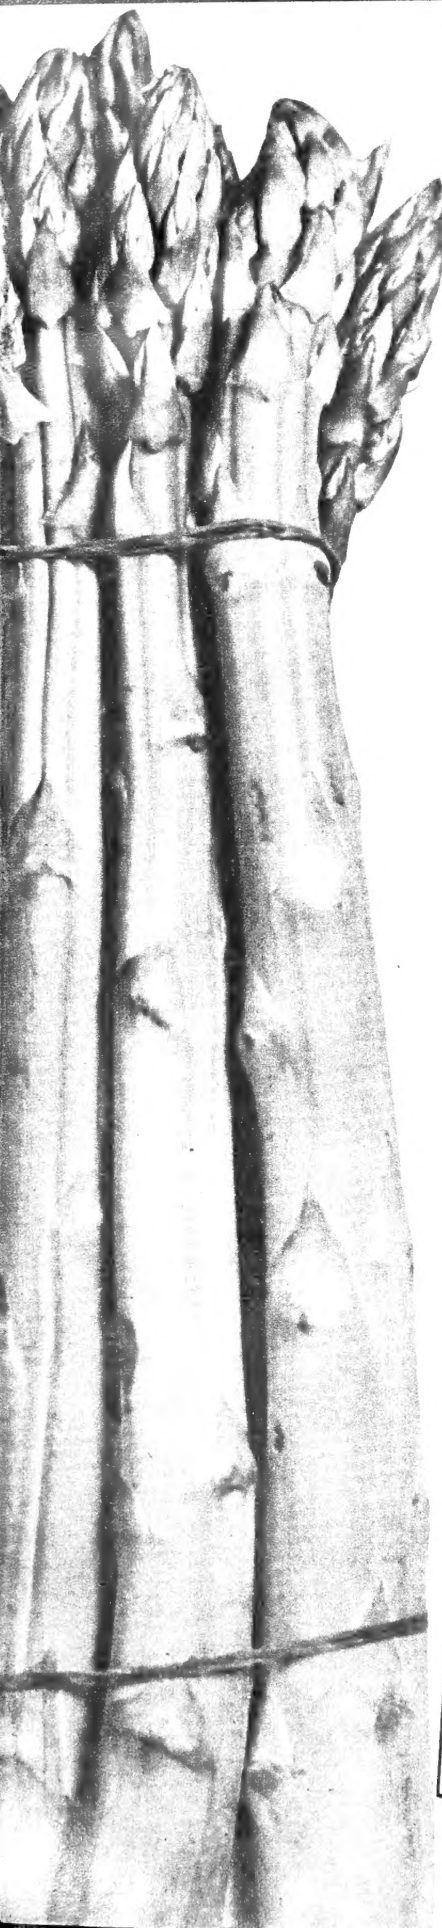

1. We guarantee our stock to be true to name. If it proves otherwise, we will replace free or refund the amount you paid us for it.
2. We guarantee our stock to be first quality and to reach you in good, live, growing condition. Examine it carefully upon arrival, and, if you are not entirely satisfied, return it at once and we will replace it free or refund your money.

3. Our stock is carefully handled, and under ordinary conditions should grow for you. But if it does not, owing to the weather and other conditions over which we have no control, we will replace at half price the following season, you to notify us not later than October 1st, 1950, accompanying your report with remittance of one-half original purchase price.

We want you to be satisfied. If anything is wrong, we want you to write to us.

GROW YOUR OWN Asparagus

Delicious, Tender Fresh From Your Own Garden

For home use plant Asparagus 18 to 24 inches apart each way, 3 to 4 inches deep, spreading the roots out flat. Lasts a lifetime. Our Jumbo plants are the finest we have ever seen and save a year's time. It is mighty nice in the spring to be able to go out in your garden and cut fresh asparagus for 6 to 8 weeks. They taste better and save you money.

Number 500

A 33 A new asparagus developed by the University of California. Extensive tests there show it to be much superior. Larger spears, more productive, much more closed heads and does not flower out as soon.

	Postpaid	Per 6	Per 12	Per 25	Per 100

Rhubarb

FRESH FROM YOUR OWN GARDEN!

It is the earliest spring vegetable. Plant 3 to 4 feet apart, covering the crown with 2 inches of soil. Postpaid.

A 24 Chipman's Canada Red—This new variety has large stalks that are red from top to bottom, even the flesh is red. It does not lose this rich color in cooking. Juicy and sweetest of all, takes less sugar. Seedless. Skin is so tender you need not peel it. Very productive, you can pull the stalks all spring and summer.

6 for \$4.25, 3 for \$2.35, Each 85c

A 16 Red MacDonald—A tremendous producer of giant size stalks from early spring till late summer. Stalks are 18 to 24 inches tall, many half as thick as your wrist. Seedless. It is 2 to 3 times larger than common rhubarb, far more tender, delicious and sweeter. Its bright red skin and tender white flesh makes very attractive and fine tasting sauce and pies.

6 for \$3.25, 3 for \$1.85, Each 70c

A 17 Ruby—Stalks are smaller than Canada Red or MacDonald but there are more of them. Skin is red and flesh is red. Very fine flavor, very tender and one of the sweetest of all rhubarb. Very prolific yielder. Some prefer these smaller stalks. They can be used early spring to late summer. The more you use, the more it produces. Seedless.

6 for \$3.25, 3 for \$1.85, Each 70c

A 19 Victoria—This is the old fashioned common rhubarb.

7 for \$1.00, 3 for 50c

Postpaid.

LARGE, JUICY

Strawberries

**FRESH FROM YOUR
OWN GARDEN**

All the strawberries on this page are June-bearers. Set out a patch this spring. They will make a lot of new plants this summer and next spring you will have your own berries instead of having to buy them. And when you buy them you know how hard it is to get real fresh good berries. For home use set the plants 24 inches apart each way. For a larger bed, set them 18 to 24 inches apart in the row and the rows 3½ feet apart. All Strawberries are POSTPAID.

AMBROSIA

100 for \$3.00

50 for \$1.65

25 for \$1.00

200 for \$5.50

A 1 AMBROSIA is one of the finest Strawberries we have ever tasted. It has that delicious, sweet, real strawberry flavor. The sparkling bright red berries are very large and firm, fine for canning, preserves and freezing because they hold their shape. The fruit is easy to pick and clean because it comes on tall stems, strong enough to hold the fruit up off the ground. Very productive, ripens right after Dunlap. Self-pollenizing. POSTPAID.

BLAKEMORE

100 for \$2.00

**25 for 75c
200 for \$3.50**

**50 for \$1.25
500 for 7.50**

1000 for \$12.50

A 4 For preserving, canning and freezing, Blakemore is especially fine because it holds its red color and shape so well. For "company," you put Blakemore on the table. It ripens a few days before Senator Dunlap and is very dependable, producing large crops every year. It stands up well during drought. The berries are large, firm, an attractive red and good quality. It is one of the most widely planted varieties in America. Self-pollenizing. POSTPAID.

DUNLAP

100 for \$2.00

**25 for 75c
200 for \$3.50**

**50 for \$1.25
500 for 7.50**

1000 for \$13.50

A 3 We have sold countless millions of this grand strawberry, SENATOR DUNLAP. It is the most widely planted kind in the middle west. Hundreds of thousands of families, every summer, enjoy the fruit. It ripens in midseason and is simply delicious to eat, can, preserve and freeze. It is so dependable, seems like it never fails to produce a good crop. Self-pollenizing. POSTPAID.

ROBINSON

100 for \$2.00

**25 for 75c
200 for \$3.50**

**50 for \$1.25
500 for 8.00**

1000 for \$15.00

A 11 Robinson is a new variety that you certainly should try out. For home use it was the best new strawberry in our trials. It is an extremely heavy bearer. The fruit is very large, bright red and very delicious. Fine for eating fresh, for canning and for freezing. It ripens after Dunlap, thus prolonging the berry season. We are making a very special price on Robinson so many will plant some and find out for themselves how good it is. POSTPAID.

PREMIER

100 for \$2.50

**25 for \$1.00
200 for 4.50**

**50 for \$1.50
500 for \$9.50**

1000 for \$17.50

A 5 This is by far the most popular extra early strawberry. It is our first variety to ripen and is so extremely productive that it continues producing berries for many days. The berries are very large, firm, good quality, rich red color. Because the blooms are very frost-resistant, it is a sure and heavy bearer. Plant some for the first ripe strawberries and for canning and preserves. Self-pollenizing. POSTPAID.

Plant Everbearing strawberries this spring to eat fresh, can, preserve and for freezing

Do you know anything that tastes better than fresh, home-grown, sweet, luscious strawberries? Why pay such high prices for the fruit when it is so easy to grow them? In every garden there is room for at least a small patch. They bear quickly and produce high

yields for the small space they take. Plant plenty so you have enough to eat fresh, to can, preserve, and for freezing. For home use set plants 24 inches apart each way. For a larger bed, set 18 to 24 inches apart in the row and the rows 3½ feet apart.

INTER-STATE'S GENUINE GIANT GEM

*Everbearing Strawberries
will bear this Summer and Fall*

100 for \$3.50

25 for \$1.25 50 for \$2.00 200 for \$6.00 1000 for \$22.50

A 2 Gem is the variety which made everbearing strawberries so popular. It seems to stand more adverse conditions. Extremely productive. The berries are large, firm, bright red and good quality. Especially fine for canning and freezing. They will bear

THIS SUMMER AND FALL, start-60 to 90 days after planting and continue until freezing weather. It is astonishing how many quarts of big fine berries you get. Next year they will bear spring, summer and fall. Self-pollenizing. POSTPAID.

Gives you berries from extra early to freezing.

Sioux Strawberry

A 35 **SIoux**—This is a new variety originated at the Cheyenne Horticultural Field Station. It was created especially for western Nebraska, Wyoming, northern Colorado, Dakotas and such sections where other varieties of strawberries will not live. Here at Hamburg it is a tremendously vigorous grower, big stems, large leaves. The fruit is larger than normal, bright red color and extremely sweet. Unfortunately we have available only a small quantity of plants this spring so we cannot sell more than 25 to a customer. We especially want the folks who have not been able to grow strawberries to try it. Remember that even if it has been bred to stand "tough-going," in dry weather you ought to water it thoroughly. It is a June-bearer, not an ever-bearer. Self-pollenizing. POSTPAID.

25 for \$2.50

Streamliner

EVERBEARING STRAWBERRY

Will Bear This Summer and Fall

100 for **\$6.50**

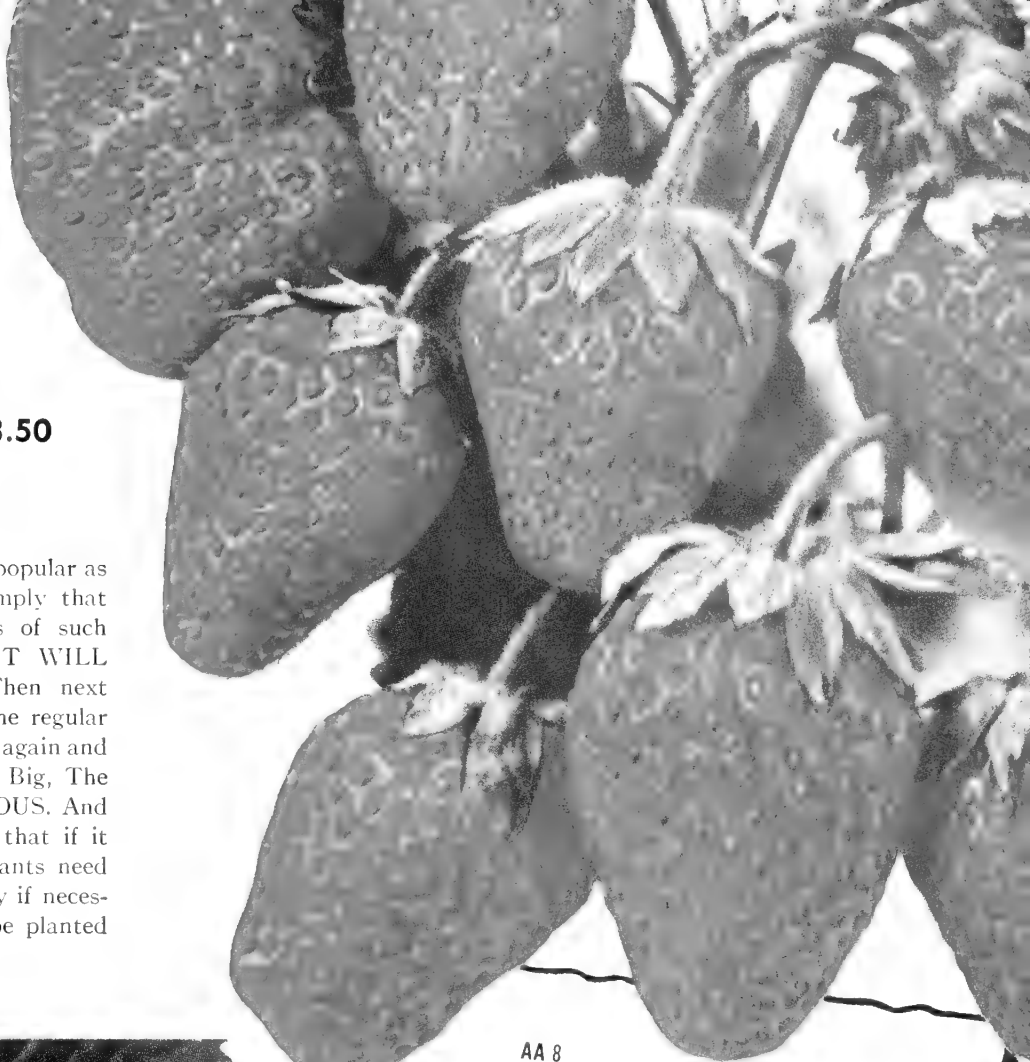

25 for **\$2.00**

50 for **\$3.50**

500 for **\$25.00**

All Postpaid

A 7 Never has a new strawberry become so popular as quickly as Streamliner. The reasons are simply that it produces so heavily the big red berries of such fine flavor. **PLANTED THIS SPRING IT WILL BEAR THIS SUMMER AND FALL.** Then next year it will produce a tremendous crop at the regular time and then after a short time it will start in again and keep on right up to freezing. The Berries are Big, The Berries are Red, The Berries are **DELICIOUS.** And there are lots of them. Remember, though, that if it turns dry during the summer or fall, the plants need plenty of water to bear well. So water freely if necessary. Streamliner is self-pollenizing so can be planted alone. Eat them, preserve them, freeze them.

A 26 A new everbearing strawberry that is certainly doing well here. And the reports we get are good. The berries are large, bright red and excellent. It is an extremely heavy bearer. We consider it extra fine for preserves and freezing. It is mighty handy when you can go out in your garden and pick fresh ripe strawberries (saves on the grocery bill, too), spring, summer and fall. Does not require much room. If you have plenty of room, though, plant a big bed because you can sell any surplus at a good price. Some folks who live in cities think they cannot grow berries. Just plant a couple rows or so across your garden and you will be astonished at how many berries you get. Superfection is self-pollenizing so can be planted alone. It bears spring, summer and fall.

Toms Red

(Plant Patent 779)

A 48 Toms Red is a new red raspberry originated by Mr. Lawrence Toms, Nevada, Iowa. He noticed that planted alongside other red raspberries it was extremely disease-resistant and bore more heavily. For home use it is extra fine because the fruit ripens over a period of a month or even longer. After thorough investigation, we bought this variety from Mr. Toms and now have a limited number of plants for sale. We do not want to sell more than 6 plants to one customer because we want to get them distributed as widely as possible. We wish that you who buy them, would write and tell us how it performs for you. That is the only way we can find out how good it is. It may prove to be the finest of all red raspberries. Also in some places it may not be suitable. In case you get some and they prove unsatisfactory you may select from our catalog in effect then, stock for the same amount you paid for the Toms Red plants.

BRISTOL BLACK RASPBERRY

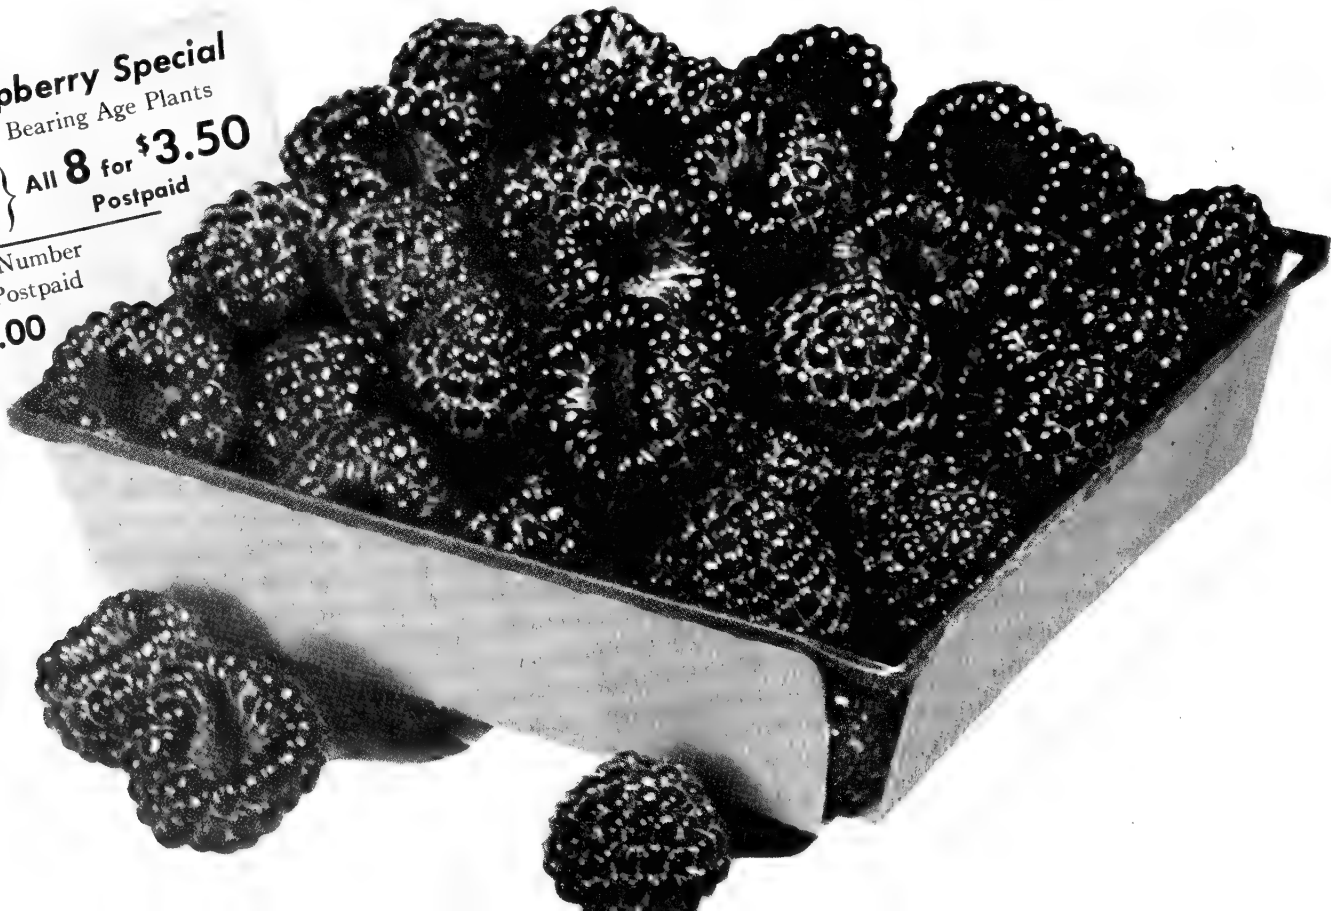

A 53 We believe this new variety, Bristol, is the best midseason black raspberry. A very strong grower that produces tremendous crops. It will even produce on thin soils where other kinds are almost a failure. Succeeds over a very wide territory. Favorable reports come from every section where black raspberries are grown. Mr. Hirschi, the eminent horticulturist of Oklahoma, re-

ports that it is the best black raspberry down there. The berries are large, jet black, firm, sweet, almost seedless and have an unsurpassed flavor.

RED RASPBERRIES

Red Raspberries are delicious to eat fresh, for pies, shortcakes, sauce, jam and freezing. Plant them 3 to 4 feet apart in the row and the rows 6 to 7 feet apart. Very hardy, they do best in the northern and central states. Ten plants will produce many berries but if you really like them as most people do, then set out 25 or more if you have the room. Any surplus can be easily sold at a good price. Our 2-Year Bearing Age plants WILL BEAR THIS YEAR. Our plants are doubly inspected and are extra fine.

A 44 Indian Summer—Bears two crops each year, a heavy crop at usual time in the summer and a lighter crop in the fall on the new canes. Very large red berries of good quality. A fine variety for home use. POSTPAID.

 Raspberries fresh from your
 own garden

BLACK RASPBERRIES

They ripen after strawberries and just ahead of red raspberries. Plant them 3 to 4 feet apart in the row and the rows 6 to 7 feet apart.

A 50 Morrison—Immense berries, jet black, fine flavor almost seedless. Heavy bearer, especially on rich soil. Very fine. Because the fruit is so large, sweet, tender and delicious it is extra good for eating fresh. And it makes wonderful sauce, jam, cobblers, tarts and pies. Ripens just a little later than Cumberland.

A 51 Cumberland—For years America's most popular black raspberry. Heavy producer, large berries, sweet, delicious.

A 52 New Logan—Ripens a week before Cumberland. Heavy bearer of large, high quality fruit. Bears well even on light sandy soils.

Cumberland

Berries that should be in every garden

use them for jellies, jams, sauces and pies

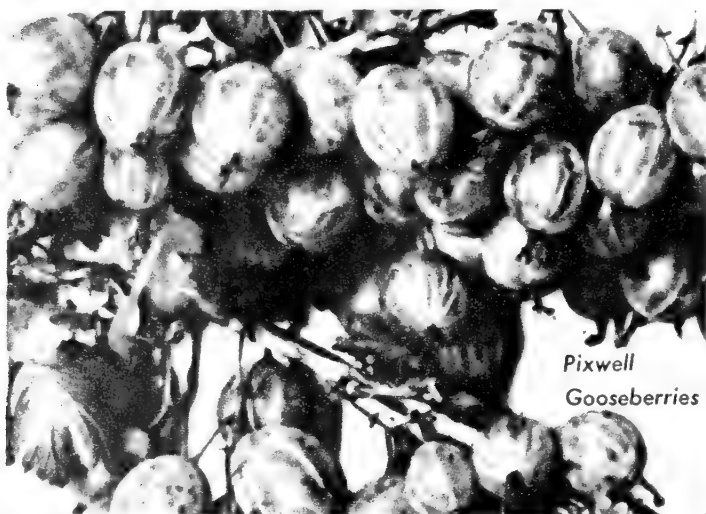

CURRENTS

A 60 Red Lake—This new variety is rapidly replacing the older kinds. We think that it is the most productive, the best quality of all currants. The berries are very large, the clusters are long and filled out right to the end. The color is a bright glossy red and makes the most beautiful and finest flavored jelly. Even after fully ripe, they will hang to the bush and not drop off as others do. They grow in ordinary garden soil in all the northern states. Plant them 3 to 4 feet apart. Please read NOTICE BELOW. Heavy 2-Year No. 1 Plants. Postpaid.

6 for \$2.40, 3 for \$1.50, Each 60c

IMPORTANT NOTICE

On account of federal regulations we ship Currants and Gooseberries only to the following states—**Arkansas, Illinois, Indiana, Iowa, Kansas, Kentucky, Missouri, Nebraska, North Dakota, Oklahoma and South Dakota.** If you do not live in these states, please do not order Currants or Gooseberries.

Pixwell
Gooseberries

GOOSEBERRIES

A 100 Pixwell—This new variety is by far the best we have ever grown. It is a tremendous bearer of large, fine quality berries. Moreover they hang down on the underside of the branches so they are very easy to pick. The plant also is not nearly as thorny as other kinds. It bears very young, the next year after planting. The berries are much larger than pictured, averaging better than 1/2 inch. Color is light green, turning pink when fully ripe. After growing Pixwell, you will not want the other kinds. Thrives in all northern states. Plant 3 to 4 feet apart. Read NOTICE ABOVE.

INTER-STATE'S OUTSTANDING Plum VARIETIES!

BEAR YOUNG - BEAR HEAVILY - DELICIOUS

Scarcely any fruit has been improved as much in the past few years as has the plum. Bears younger and more heavily. The fruit is larger, with a wonderful flavor. We offer below the finest, outstanding varieties. Plant Plums 12 to 15 feet apart, in a group so they can cross-pollinize, thus greatly increasing the crop.

F 110 Allred Plum—This new plum was named Allred because the tree, the foliage, the flowers and the fruit are red. The bark and foliage are a purple-red, the flowers are a gorgeous brilliant red and the fruit is red inside and out. Freestone and fine quality. Bears regularly. It is attractive enough to plant in your lawn but of course will bear more fruit if planted near other plums. Hardy to Central Iowa.

F 102 New Damson—This is an improved strain over the ordinary Damson. The blue plums are medium size of finest quality. Free-stone. A heavy regular bearer. Ripens in August. Hardy to northern Iowa.

F 103 Green Gage—The sweetest eating and canning plum, it is just full of sweet, sugary flavor. Large, greenish-yellow fruits, freely produced. Free-stone. Ripens in early September. It is not suited to extremely cold sections like northern Iowa.

F 104 Pipestone—A new Plum from Minnesota. The fruit is immense size, the largest plum we have ever grown. It has a very attractive color, red with a golden blush. The flesh is yellow, juicy and excellent quality. Fine for eating and cooking. Bears very young and heavily, ripening in August. Very hardy.

F 105 Red Coat—This also comes from Minnesota and is one of our best plums for canning. It is perfectly free-stone, the stone falling right out when you cut the fruit in half. The fruit is large, prune-shaped, a bright red color, good quality especially fine for canning. A healthy vigorous grower that bears young and every year. Ripens in August. Very hardy.

F 112 South Dakota—A new variety from South Dakota that produces large red and yellow plums of high quality. A very good pollinizer for other plums. Very hardy. Ripens in August

FAR NORTH PLUM SPECIAL

This is a collection of our hardiest plums, especially for the cold sections like Minnesota, Dakotas, parts of Nebraska and Wisconsin, etc. Of course, they will thrive in the other states.

F 106 Stanley—A new prune-type plum from New York that is rapidly becoming the most popular of all plums. Large, dark-blue, prune-shaped fruits. The rich yellow flesh is firm, sweet and delicious flavor. Exceptionally fine for eating fresh and canning. A heavy, regular bearer. Ripens in early September. Free-stone. Hardy up to central Iowa. Exceptionally fine.

F 107 Superior—This fine plum should be widely planted. The fruit is large, attractive red color and a rich sweet flavor. It bears very heavily, every year. Ripens in early August. Very hardy. Fine for eating and canning. A good pollinizer for other plums.

F 108 Toka—Originated by Prof. N. E. Hansen, the famous plant genius from South Dakota, this is undoubtedly the richest flavored of all plums—a sweet, somewhat spicy and tangy flavor that is unequalled. The fruit is quite large, a beautiful apricot color with very firm, yellow flesh. Perfect free-stone. Fine for eating and canning. Ripens in August. Very hardy. It is also a good pollinizer for other plums.

Pears

**DELICIOUS — EASY TO GROW — DO WELL PLANTED
IN SOD — RIGHT IN YOUR OWN YARD!**

Pears grow in any ordinary soil, even in sod, right in your yard. Plant 20 feet apart. Two trees, alike or different varieties, planted near each other so they can cross-pollinize, will both produce more heavily than if planted alone. To tell when Pears are ready to pick, place the palm of your hand under a Pear, raise it gently and if the stem snaps off easily from the limb, they are ready to pick. Then put them in a cool, dark place to ripen and you will have Pears of the highest quality.

F 90 Bartlett—Our most popular summer Pear. Fruit is large, yellow with blush, juicy, sweet, high quality.

F 93 Bierschmidt—A new summer Pear ripening a few days after Bartlett. Originating in Northern Iowa, it is hardier than Bartlett. Good bearer. Highest quality. Blight resistant.

F 92 Kieffer—The most widely planted winter Pear. A healthy, hardy and vigorous grower which bears young, heavily and regularly. The fruit is large and fills countless jars every season. Pick the fruit when it starts to color and let it ripen in a cool, dark place. Then it is delicious. Blight resistant.

F 95 Patten—Originating in Iowa, this is a very hardy Pear which can be planted in cold sections like northern Iowa, Minnesota etc. Ripens in August. The fruit is large, yellow with blush, juicy, sweet, luscious flavor. Good bearer. Very blight resistant.

F 91 Douglas—A fall pear that bears very young and regularly. Blight resistant. Poor quality.

F 96 Seckel—Called the Sugar Pear because of its sweet, delicious flavor. Fruit is not large but the highest quality. Ripens in late summer. Bears young and heavily. Blight resistant.

F 97 Waite—Originated by the United States Department of Agriculture. We think this winter pear will replace Kieffer in time because of its finer quality. A good eating Pear, heavy bearer, blight resistant, hardy, fine for canning.

Cope's SEEDLESS Pear

THE PEAR THAT HAS NO SEEDS, NO CORE

It's New
Seedless
Coreless
Attractive
Large Size
Fine Flavor
Productive
Vigorous
Hardy

F 88 Cope's New Seedless Pear—A New Fruit Sensation. A Pear That Has No Seeds and No Core. In addition, it has everything else that you could ask for in a pear; great producer, excellent quality, size, beauty, vigor and hardiness. The fruit is large, a beautiful golden-yellow with a blush. The flesh is tender and sweet, juicy and delicious. Fine to eat fresh and ideal for canning as it has no seeds, no core.

Bears Young

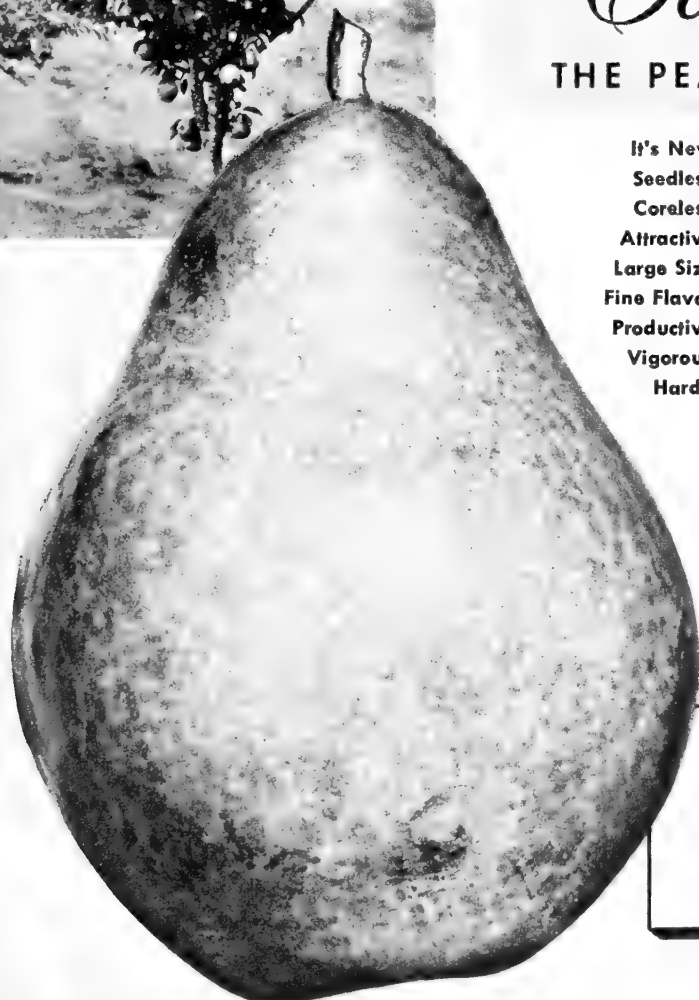

The original tree began bearing when 3 years old, and at 5 years of age it produced 3 bushels of perfect fruit. The trees in the nursery rows sometimes bear fruit.

A Delicious Summer Pear

It ripens about 10 days after Bartlett and ripens evenly without any softening at the center. It is a self-pollenizer but will produce more fruit if two Cope's trees are planted near each other. If there are other varieties of Pears close, so they cross-pollinize, then Cope's may have a few small immature seeds.

Why not plant an apple tree in your lawn? It will give you shade, flowers and fruit. We have a very fine lot of Apple Trees this season. The super size trees are exceptionally choice. The other sizes will also please you. All are 2-year branched, well-rooted trees which will soon start bearing. ORCHARDISTS WHO WANT LARGER QUANTITIES OF TREES SHOULD WRITE US FOR SPECIAL PRICES

SUMMER APPLES

F 31 Anoka—Originated by Prof. N. E. Hansen of the South Dakota Experiment Station. Generally bears next year after planting. Fruit is yellow streaked red. Ripens in August but can be used a month earlier.

F 32 Beacon—This new apple originated at the Minnesota Fruit Experiment Station and is much better than Duchess. The fruit is large, a solid bright red of very fine quality. It ripens in August but can be used weeks before. It is very hardy and extremely productive. Bears young.

F 35 Early Red Bird—This fine apple ripens a week before Yellow Transparent. It is the best real early red apple we know. The fruit is large, bright red, good quality for both eating and cooking. Hardy and a heavy bearer.

F 33 Red June—Everybody likes this early red apple.

F 37 Yellow Transparent—The favorite early yellow apple. Ripens in July. Bears young, heavily and every year. Fruit is medium size, tender, juicy. Fine flavor for eating and cooking.

FALL APPLES

F 34 Maiden Blush—An old favorite. Yellow with blush, mild flavor, large size. Ripens just before Wealthy.

F 42 Wealthy—By far the most popular fall apple. It ripens in September but can be used weeks earlier. Fruit is large, red striped, with tender, juicy flesh of fine quality. Very hardy. Bears young and heavily.

CRAB APPLES

F 70 Dolgo—Every year just full of bright red fruit which makes the finest tasting and best looking jelly. Tree itself is attractive enough to plant in your lawn as a flowering crab. Very fine.

F 71 Whitney—You can eat it fresh just like an apple. It is not tart. The fruit is medium size, red striped, fine quality. Makes wonderful apple butter and jelly. Bears young and heavily.

NEW DWARF APPLE TREES

Full Size Fruit, Easy to Pick, No Ladder Needed

At last we can offer a dwarf-growing apple tree which is hardy. The Clark dwarfing stock discovered by the Iowa Experiment Station has proven to be hardier than the Malling dwarfing stocks which are generally used. Also the Clark stock develops an excellent root system whereas the Malling roots so poorly that the tree must be staked. By budding apple varieties on the Clark dwarfing stock we produce a dwarf tree which grows no larger than a large shrub. Practically every yard has room for at least one. It is ornamental as well as fruitful. And these dwarf trees generally start bearing the second or third year after planting. The fruit is full size, often even larger than that produced on the big trees. The trees we send you do not have perfectly straight trunks, due to the process of production. But in a year or two they straighten out.

We offer three varieties—

E 10 Yellow Transparent, the popular summer apple.

E 11 Yellow Delicious, America's favorite yellow apple.

E 12 Delcon. A new variety originated by the Missouri State Fruit Experiment Station at Mountain Grove. The fruit resembles the Solid Red Delicious and the flavor is wonderful. Bears very heavily. The tree itself is naturally a rather dwarf grower so by budding it on the Clark dwarfing stock we should have a really dwarf tree, more dwarf than the other two varieties. We expect Delcon on Clark to become the leading dwarf apple tree of America.

Price on Dwarf Apple Tree, Your Choice

Each \$2.50, Not Postpaid

WINTER APPLES

F 48 Grimes Golden—For many, many years this has been a very popular yellow apple. The fruit is large and highest quality.

F 49 Hawkeye Greening—This fine apple originated by the Iowa Experiment Station, an attractive greenish-yellow, very large in size and good quality. The only apple we know that is good to eat fresh from the tree, and is just as good in late winter, even when kept in an ordinary cave or cool cellar. Over a period of more than ten years it has outborne every apple tested at Ames, Iowa.

F 51 Jonathan—Almost everybody knows it and likes it. A fine bright red apple of highest quality with crisp, yet tender flesh. Juicy and full of snap.

F 52 Jonathan, New Bright Red—This is like the apple above but it colors a couple of weeks or so earlier and has a richer color. One of America's greatest apples.

F 53 McIntosh, Solid Red—This large red apple is especially popular in the east, and also in sections of other states. Flesh Snow-white of very high quality.

F 56 Red Delicious—This is the original Delicious which originated in Iowa and has been planted from coast to coast for its superb quality and mild juicy flavor.

F 60 Solid Red Delicious—Considered by many to be the finest of all red apples. It bears younger, keeps longer and the fruit colors up several weeks earlier than the common Red Delicious. The fruit is large, solid red and has a delicious flavor, unequalled by any other apple.

F 58 Secor—Originated at the Iowa Experiment Station. Large red apple of very highest quality. Productive. Many like it better than Jonathan.

F 36 Sweet Delicious. Our best sweet apple. Large red fruit with rich, sweet aromatic flavor.

F 64 Winesap—The most popular long keeping winter apple. This is an improved strain. It has better color, larger size and will keep right through winter into spring.

F 66 Yellow Delicious—This is now the most popular yellow apple in all America. It bears young and heavily, the fruit is large, juicy and no apple has a finer flavor. Some people who cannot digest other apples, eat this without any trouble. It is ready for eating in late fall.

F 67 York Imperial—A large red apple, a little lop-sided but keeps all winter. A heavy bearer and good quality.

New McClain Cherry

F 82 We believe this amazing McClain cherry is the finest new variety introduced in many years. The fruit is large, a rich red color, and delicious flavor. It ripens about the same time as Montmorency. For eating fresh, for pies, sauce, preserves and freezing, it is unsurpassed. It bears very young, generally the very next year after planting. Moreover it bears regularly and very heavily. The fruit is easy to pick because the tree does not grow as tall as other cherries. Wherever it has been tried, the reports are enthusiastic. Will grow right in your lawn, giving you lovely flowers, attractive foliage and delicious, healthful fruit for many years.

6 in 1 Apple Tree 6 DIFFERENT APPLES ON 1 TREE

F 20 This 6-in-1 Apple Tree has six different kinds of apples, all on one tree. They are six of our best, most popular kinds, giving you fruit from early summer well into the winter.

Yellow Transparent, for summer.

Wealthy, for fall.

Yellow Delicious, for late fall.

Solid Red Delicious, for early winter.

Bright Red Jonathan, for the holidays.

Winesap, for winter.

Yellow Transparent and Yellow Delicious start bearing young, followed by Wealthy and soon all are bearing, all on the same tree. This is the one tree for those who want several kinds of apples, but do not have much ground available. With its flowers, rich green foliage and fruit, it is attractive enough to plant in your front yard.

2-Year Trees, 4 to 6 feet tall.

Gilbert
Montmorency

Yellow Glass

Famous Inter-State **CHERRIES** BEAR YOUNG AND BEAR EVERY YEAR

Look over your yard and see where you can plant a cherry tree or two. They commence bearing very young and seldom miss a crop. If short of room, you can plant right in your front lawn because the tree itself is shapely and has good foliage. The flowers are beautiful in the spring. And then in early summer you have the delicious, healthful fruit. What tastes better than the first, tree-ripened cherries, eaten fresh or a juicy red pie or cobbler or tasty preserves? Plant the trees 15 to 20 feet apart. They grow from coast to coast excepting in the most southern states and extremely cold states like Minnesota and Dakotas. Our Super Size are exceptionally fine large trees.

Commercial orchardists should write us for special prices on Gilbert Montmorency. Careful tests by Dr. Buchholtz of Iowa Experiment Station and Dr. Moore of Wisconsin show that it is as near virus free as is possible to produce.

F 81 Gilbert Montmorency—For many years the Montmorency has been the most popular of all Cherries. This is a special strain from a single tree, the best of many thousands of Montmorency trees, in the great cherry district at Sturgeon Bay, Wisconsin. Ripens about ten days after Early Richmond. The red fruit is large, firm, fine flavor, the best of all Cherries for canning. The tree is a rather short grower so the fruit can be easily picked.

F 78 YELLOW GLASS—The hardest sweet cherry. Large, golden fruit with sweet, delicious flavor. Fine for eating fresh and canning.

F 83 Black Giant—Considered the hardest Black Sweet Cherry.

F 79 Early Richmond (May Cherry)—This is the popular early pie cherry of the nation. The fruit is bright red, juicy and delicious. Tree is a strong grower, bears heavily and starts bearing young.

F 77 Kansas Sweet—This Cherry comes from Southern Kansas. It is the only red sweet cherry we know of that will bear in the middle west and south to Texas. The fruit is large, dark red, firm, sweet with a delicious flavor. The tree itself is handsome enough to plant in your front yard—good foliage, fine shape, flowers.

F 80 English Morello—This is latest Cherry to ripen. Fruit is good size, almost black when fully ripe, sprightly acid. Very heavy and young bearer.

Polly, finest white Peach

Polly

FINEST WHITE PEACH

Hardy, Delicious, Free-Stone, Heavy Bearer

F 2 The fruit is large, blushed, free-stone, ripens just before Elberta. The flesh is white, juicy but firm, the richest, most delicious flavor. All who have tasted it agree that POLLY IS THE FINEST FLAVORED PEACH THEY EVER ATE. When canned it stays firm and makes the most luscious peach sauce and preserves. Polly is not a good shipper but is best for home use and local markets. It bears young and is a heavy, regular bearer. Polly was introduced by us in the spring of 1934. It was originated by the Iowa Experiment Station. Thoroughly tested for many years, standing cold of 15 below zero. Polly is not a peach just for the North. It is a great peach for other sections as well. The fruit has such a wonderful flavor and is produced abundantly.

*Sungold
Hardy yellow Peach*

INTER-STATE *Peaches* BEAR YOUNG AND HEAVILY— ALL BUDDED FROM BEARING TRUE-TO-NAME VARIETIES

The peaches are listed in their order of ripening. Mayflower ripens here in early July—Elberta the last of August. Peaches need but little room, easy to grow. Our Iowa-grown, budded trees are hardy and bear young. Plant them 15 to 20 feet apart.

F 12 Mayflower—First to ripen yet almost frost-proof as it blossoms so late. Red all over, fair quality, good size. Semi-cling.

F 14 Red Haven—This new variety is rapidly becoming the leading real early yellow peach. The fruit is large, almost a solid red like a Jonathan apple. The yellow flesh is firm, sweetly delicious, high quality. Free-stone. A hardy, vigorous grower and very productive.

F 5 Champion—Free-stone. Large creamy-white with red cheek. Flesh is white, juicy, sweet and highest quality. A heavy, regular bearer. Very hardy. Excepting Sungold and Polly, this is probably the hardiest peach we grow.

F 9 Hale Haven—Free-stone. This fine new peach is rapidly overtaking Elberta. A heavy producer of large, yellow peaches of high quality. Hardy.

F 6 Early Elberta—Free-stone. Yellow with blush. Fruit is large, yellow flesh, firm, juicy, delicious. Hardy.

F 10 J. H. Hale—Free-stone. Very large, golden yellow, flushed red with fuzzless skin. Flesh is yellow, solid, tender, very high quality. On the market it always brings a higher price. Plant with other varieties for pollinization to increase yield.

F 7 Elberta—This grand peach fills millions of fruit jars every year.

F 15 Indian Blood Cling—Flesh is almost red as a beet. Fine for pickling and preserves. Ripens 2 weeks after Elberta.

Sungold

(Sold Only by Inter-State Nurseries)

HARDY YELLOW PEACH

Very Large, Free-Stone, High Quality, Attractive

F 1 Sungold fruit is very large, free-stone, beautifully blushed. Flesh is firm, golden yellow, full of juice, fine quality. Extra good for canning. Ripens a day or two before Elberta and is a heavy, regular bearer. A commercial peach because it colors early and ships well. Tree is well-branched, stocky and short, making picking easier. Tests at Ames, Iowa show it is definitely a hardier peach. Dave Moore of Grand Junction, Colorado has told us many times it is the best variety he grows. Mr. E. F. Lewis of Grand Junction told us that in summer 1948 he sold all his Sungold at \$3.50 per bushel when Elberta was so cheap that many orchardists did not pick their fruit. Sungold is self-pollinizing, far harder than J. H. Hale. If you are an orchardist, you should by all means make a test planting of Sungold.

The Thomas Black Walnut, Actual Size

THOMAS BLACK WALNUT

N 1 When the long cold evenings of winter come, what a pleasure it is to crack some Black Walnuts to eat or for fudge, or for mother. She can use them in so many different ways and what a delicious flavor they add. Everybody likes Black Walnuts, but the common Black Walnut is small and it is hard to get out the meats.

Now you can have the Thomas grafted Black Walnut, which is giant size with kernels much larger, better flavor and much easier to get out. Thomas is fast growing and produces very large nuts. It is the greatest nut tree of the country. You should plant it because—

- 1.** It bears very young, often second year after planting. A mature tree will produce 15 to 40 bushels of giant size nuts which sell for \$4.00 or more per bushel.
- 2.** The nuts are immense size as pictured above. They crack easily so the meats come out in halves and quarters. A bushel of nuts cracks out 10 to 12 pounds of meats.
- 3.** The nuts are delicious flavor and because they are so large and plump and come out in halves and quarters they sell for 75c or more a pound.
- 4.** It will grow in almost every state in America. It is not particular as to soil but of course will do best in rich soil with plenty of moisture.
- 5.** Plant a tree or two for your own use. If you have room, plant more for profit. You can easily sell the big nuts at high prices. Plant 50 feet apart and 2 or 3 inches deeper than they stood in the nursery.
- 6.** In time the tree will grow large and walnut logs are becoming scarce. If you wished you could sell the trees for lumber at a good price. We doubt, though, if you would do this because the nut crop is so valuable. These are grafted trees and grow rapidly.

MYERS BLACK WALNUT

N 2 This new variety is very highly recommended. Mr. Hirschi who is a practical, experienced horticulturist and one of the best qualified nut experts in America, considers it the best he has ever fruited. It is making a remarkable record. Especially on thinner ground, Myers is better. The nuts are not as large as Thomas but the shell is thinner so that a bushel of Myers cracks out as much and perhaps a little more than the Thomas. The quality is especially rich. These are grafted trees and start bearing young.

N 5 Mintle—This new variety originated in Iowa. It is about the same size as Myers. It also is thin-shelled, easily cracked, the meats coming out in quarters. Very high quality light colored meats. Should do extra well especially on good ground. These grafted trees bear young.

NN 3 WALNUT SPECIAL

2 Thomas
1 Mintle
1 Myers } All 4 for \$7.50
2 to 3 Feet, Not Postpaid

Thomas, Mintle and Myers are all self-fertile but we believe that planting several varieties so they can cross-pollinize will increase the yield.

WALNUT TREES

N 4 These trees are grown from the nuts of the Thomas Black Walnut. They are far better than trees grown from the ordinary black walnut. Half or more of these trees will produce nuts almost as large as the Thomas. If you have room, plant a grove of these. You will get excellent nuts which sell at good prices and the trees will grow into a valuable grove. Every farm has room somewhere for some of these. They will soon grow into money.

Clematis Jackmani

INTER-STATE'S CLEMATIS

Clematis are the most colorful and many people think them the most beautiful of all flowering vines. On a porch, pergola, trellis or fence, they are truly a gorgeous sight, so many lovely flowers of purple, white and red, all summer. A location shaded from the hot afternoon sun is ideal. Our plants will bloom this summer. **POSTPAID.**

V 2 Henryi—A chastely pure white flower of unrivaled charm. Immense size, often 7 inches across, and produced all summer.

Each 85c, 2 for \$1.50

V 3 Jackmani—When you see this plant, covered with hundreds of purple blooms, you will know why it is called the Queen of all Vines. The flowers are large, 4 to 6 inches across and produced freely all summer. The most colorful and attractive of all.

Each 85c, 2 for \$1.50

V 4 Mme. Ed. Andre—Its striking, velvety red flowers are produced profusely.

Each 85c, 2 for \$1.50

SILVER LACE VINE

V 17 The Fastest Growing Hardy Vine. Often grows 10 to 12 feet the very first season. From mid-summer to late fall, completely covered with thousands of small white flowers. The foliage is glossy green. Easy to grow, it is ideal for porch, pergola, trailing over a fence, stumps and banks.

Each 75c, 2 for \$1.25 Postpaid

V 18 Boston Ivy—It clings so closely to the walls, they seem to be shingled with leaves. The foliage colors a charming maroon in the fall. Clings without support to even the smoothest surface. Prefers a north or east side. **Postpaid.**

Each 60c, 2 for \$1.00

Wisteria Vines

Easy to grow from coast to coast excepting in the very coldest states. Long clusters of fragrant flowers in the spring. Our plants are grafted from blooming wood and start blooming much quicker than ordinary Wisteria. Your choice of four colors.

V 9 Summer King Honeysuckle (Heckrotti)—From June until freezing, this magnificent plant is covered with showy clusters of large, fragrant flowers, rose-flame outside and gold inside. The attractive foliage, a rich blue-green, makes a perfect background for the brilliant flowers. Hardy, healthy, easy-to-grow. It can be used in so many places—porch, pergola, fence, fine for covering bank or cave, and especially beautiful for a trellis. **OUR PLANTS WILL BLOOM THIS SUMMER. Postpaid.**

2 Year Plants Each 75c, 2 for \$1.25

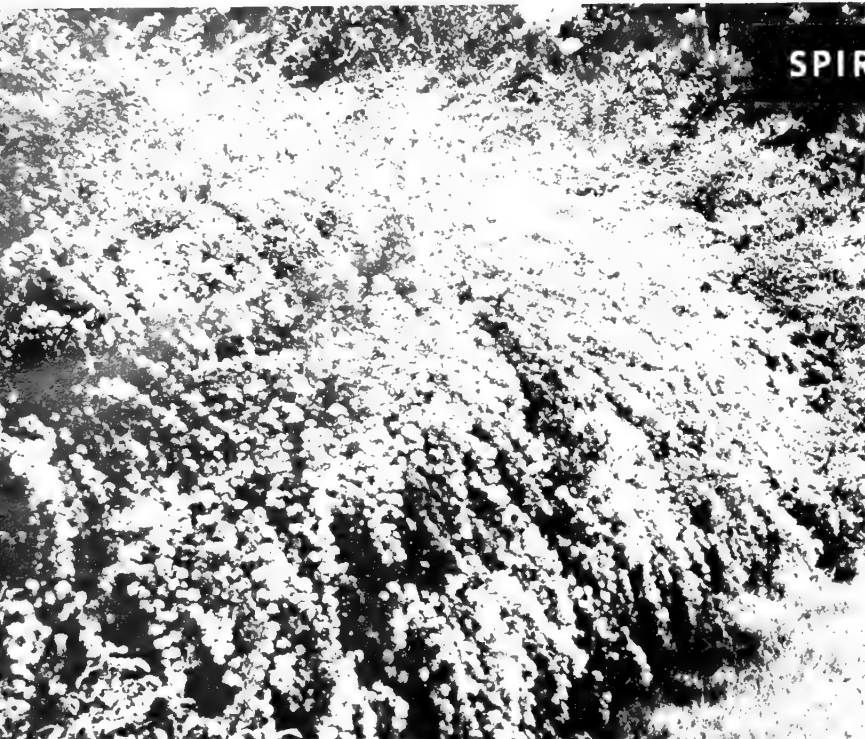

NEW SURE-TO-FRUIT BITTERSWEET

V 19 The ordinary Bittersweet often fails to fruit. Here is one that always fruits. Even one vine planted alone will bear fruit, but if you plant 2 or 3 close together so they can cross-pollinize, then they will all bear a great deal more. Grows rapidly in any kind of soil, in sun or partial shade. Blooms in June followed by clusters of attractive orange-red berries. Makes fine late fall and winter bouquets. **Postpaid.**

2 Year Plants Each 75c, 2 for \$1.25

Inter-State's Flowering Shrubs

MAKE YOUR HOUSE A HOME. HAVE BLOOMS FROM SPRING TO FROST

SPIREA VAN HOUTTE. Bridal Wreath

\$ 139 This shrub has done more than any other to beautify America. It makes good everywhere, a solid mass of white in the spring. Use it for foundation planting, single specimens, in groups, for screens, hedging, in fact any place you want a hardy flowering shrub 5 to 6 feet tall. Grows in sun or part shade, good soil or poor. POSTPAID.

Cardinal Shrub, (Weigela Vanicek)

\$ 150 The picture on the front cover does not do justice to this amazing new All-American shrub. We wish that you could see them blooming here. In May-June each one is covered from top to bottom with hundreds and hundreds of the lovely rosy-red flowers. They are trumpet-shaped, 1 to 1¼ inches across. After this first big display, there is hardly a time until freezing weather that there are not blossoms. If you cut off sprays of flowers and use them for bouquets, the plant will flower even more freely than if you left them on. The young plants in the nursery field, only a few months old, bloom. Those we send you will bloom this summer and fall.

At Hamburg, the Cardinal Shrub has withstood 20 below zero without injury. It is so easy to grow, not particular as to soil. Thrives in full sun or part shade. It makes a shapely bush 5 to 6 feet tall with excellent foliage. It is the best hardy new shrub which we have ever tested. Ordinarily prices on an outstanding new introduction are high. But we want many thousands, all over America, to plant Cardinal Shrub because we know that just one in a neighborhood will bring many more orders. Those who see it, want it. Look over your yard, whether large or small. You will find a spot where it will fit in. In a few months you will write us telling how much you like it. POSTPAID.

See Page 3 for Extra Gifts

\$ 34 Dogwood, Colorado. Dr. A. C. Hildreth, Superintendent of the U.S. Horticultural Field Station at Cheyenne considers this one of the very best native American shrubs. It makes a large shrub, 6 to 8 feet tall and 10 to 12 feet wide, perfect form. The branches grow almost horizontally, the bottom branches tying in perfectly with the lawn. In the spring has white flowers, followed by white berries which the birds like. Then in the fall the foliage turns brilliant autumn colors. In the winter the bark is a pleasing red. It is truly a wonderful shrub. Perfectly hardy and easy to grow. You who are looking for something different, something much better than usual and something exceedingly rare, will want this. Our suggestion is, give it plenty of room as it will soon develop into a magnificent specimen.

12 to 18 inches, Each \$2.00 Postpaid

\$ 2 Almond, Pink Flowering—Blooming soon after the Golden Bell, it is one of the earliest flowering shrubs. The small, very double, rosy-pink flowers completely cover every branch from top to bottom. Makes a rounded bush 3 to 4 feet tall. Grows from coast to coast and gulf to Canada. Thrives in full sun or partial shade. Our plants are grown on their own roots. This means extra vigor and also they will not produce "wild suckers."

Azalea Mollis imported from Holland

Azalea Special

1 Orange
1 Yellow
1 Red
1 Salmon

SS 4

All 4 for \$6.75
Postpaid

Red Azalea

We are fortunate in being able to import from Holland these fine Azaleas, the result of many years of careful selection. Azalea Mollis has proven to be the most satisfactory for planting between the Alleghenies and the Rockies.

They prefer part shade and do best in a soil mixed half and half with Peat Moss. (See page 33. Order Peat Moss early so it can be shipped earlier by freight and be on hand at planting time.) The roots are very close to the surface so after planting keep a Peat Moss mulch around the plants, and each spring work in more Peat Moss and well rotted cow manure. In dry weather water thoroughly. Remove the faded flowers so they will not go to seed. These plants are hardy, but we do not advise planting in Northern Iowa or similar cold sections. Give them just a little extra care and you will be richly rewarded. Their flowers are so lovely and add so much to any planting, you, your friends and all who see them, will enjoy their beauty.

Orange Azalea

Salmon and Yellow Azalea

Ordinary Azaleas run to small flowers of yellow and orange. But this Holland Strain has much larger flowers in a wider and better color range. They are very superior to the ordinary Azalea Mollis. Bloom in early spring and those we send out, fine bushy plants about a foot tall, almost always bloom the first season. Full grown 3 to 8 feet tall.

We offer you these finer Azalea Mollis:

\$ 20 Orange	\$ 27 Salmon
\$ 21 Red	\$ 23 Yellow

Your choice, alike or assorted.

Each \$2.00, 3 for \$5.25 postpaid.

Blue Hydrangea

\$ 55 Blue Hydrangea Domoti—The hardiest Blue Hydrangea. Has immense flower heads, often a foot across, and last for many weeks. In ordinary soil the flowers are pink. In acid soil they are blue. You can make your soil acid by mixing with it, half and half, acid Peat Moss (see page 33). Watering twice a month with a tablespoon of aluminum sulphate per gallon of water, will deepen the blue color. Grows 3 feet tall and just as wide. Does best in partial shade. Where temperature goes below zero give winter protection just like roses, by mounding up 10 to 12 inches of soil around the plant before severe freezing. We do not recommend planting in Dakotas and similar cold sections. Elsewhere it is a center of attraction in any garden. Our plants are field-grown (not small green-house potted plants) and a very great bargain at this price.

Field-grown Plants, Postpaid

Each \$1.00, 2 for \$1.75

Euonymus Burning Bush

\$ 32 Euonymus (Alatus Compactus)—Yellow flowers in May-June followed by red fruits. In the fall the leaves turn brilliant coppery-crimson tinged rose. Has an unusual corky bark. Thrives in partial shade or full sun. Perfectly hardy, makes a compact, bushy plant 4 to 5 feet tall and just as wide. Not particular as to soil, growing over a wide territory. A shrub that is ornamental and attracts attention spring, summer, fall and winter. Branched plants about a foot tall. Postpaid.

Each \$1.50

Crape Myrtle

Viburnum Carlesi

Blooms Midsummer to Frost

Crape Myrtle, the south's most beautiful shrub, can now be grown much farther north. We have secured a strain which is hardier. In northern states, grow it just like Ever-blooming Roses, giving winter protection by mounding up dirt before cold weather comes. It blooms on new growth so it does not matter if the old top is entirely killed. The flowers have such lovely, clear colors with a soft crepe-like texture. We have priced them reasonably so all can enjoy this wonderful shrub. They will bloom this summer.

Flowering Magnolia

T 18 Magnolia, Soulangeana—The most popular hardy Magnolia and many think the most beautiful of all flowering trees. One of the first trees to bloom in the spring, the delightfully fragrant flowers appear before the leaves. The blossoms are large, often 8 inches across, pink on the outside and white on the inside. The foliage is an attractive, shiny green. The tree seldom grows more than 10 feet tall and starts blooming when 3 feet tall. There are several fine specimens growing in Hamburg, but this is about the northern limit, as they require a sheltered location here.

This year we are fortunate in having available extra fine larger size trees. Every one has bloom buds and will bloom this season. Only in an exceptionally favorable growing season can we offer such trees. We suggest that you order early as we have only five thousand. The larger size trees generally sell for about twice our price.

Jay Darling Flowering Crab

T 32 Jay Darling—This is the favorite of Mr. den Boer, Des Moines, Iowa, the eminent Flowering Crab authority. Similar to Hopa but the flowers are a deeper color, hold the color longer. The fruit is a brighter red and hangs longer on the tree. The tree is more rounded in shape and does not grow as tall. The foliage in the spring is a deeper color and holds this color longer. The birds like the fruit and those that winter over eat the fallen fruit all winter when they can get to it. In the spring when the

Flowering Hopa Crab

robins return, Mr. den Boer says that the first food they look for are the fallen fruits under the Jay Darling trees. The fruit makes wonderful jelly.

Winterberry Stays Green All Winter

Winterberry

EUONYMUS PATENS

\$ 155 This is one of the most attractive of all shrubs. The leaves are lustrous glossy green and stay on all winter . . . Thrives in sun or partial shade. Does fine on north side of house. Makes a shapely bush 4 to 5 feet tall with red berries which hang on a long time. Fine for foundation planting and around the porch. Also it stands out in a general planting of shrubs. It makes a wonderful hedge that can be sheared to any desired height. As a hedge plant 18 to 24 inches apart. You can well picture to yourself how beautiful such a hedge would be, with well-branched, bushy plants and green foliage all through the winter. It does fine all through the south and eastern states, also Ohio, Pennsylvania, Indiana, Illinois, Missouri, southern Iowa, southeast Nebraska and all Kansas except northwest section. If you now have the ordinary shrubs, plant some of these. You will like it and everybody who see it, will ask you for the name of it.

Fragrant, Colorful French Lilacs

PLANT EARLY THIS SPRING—WILL BLOOM NEXT SPRING

They bloom very young, just a year or two after planting. Grow 6 to 8 feet tall. These are so fine that many cities are making French Lilacs the city-wide shrub. In our trial plantings we have nearly 50 varieties of Lilacs. We are propagating those kinds which we find best. They are grown right here at Hamburg and we believe they are as fine plants as are grown. Seldom have you had the opportunity to get such fine kinds at these prices. Postpaid.

AMERICA'S FINEST LILAC VARIETIES

\$ 84 Firmament—This is the highest rated Blue and it well deserves to be. It is the finest and bluest we have ever seen, a clear sky blue. Single.

\$ 63 Marechal Foch—Enormous flowers of glowing rose. Without doubt this is one of the greatest of all Lilacs. Single.

\$ 72 Monge—This is conceded to be the best of the ruby-red. It is magnificent. Single.

\$ 75 Mont Blanc—We consider this one of our finest whites. Most of the others are creamy white. This is almost snow-white. Single.

\$ 74 Victor Lemoine—Mr. Lemoine created most of the French Lilacs and he named this for himself. It is one of the world's finest, a beautiful pink overlaid lavender. Double.

\$ 90 President Falliers—This is the finest lilac color. Very full trusses and the flowers have a graceful lacy appearance. Double.

HARDY HEDGES

BRIDAL WREATH

H 3 Bridal Wreath (Spirea Van Houtte)—This photograph shows the beauty of Bridal Wreath, America's most popular and widely planted untrimmed flowering hedge. Millions of small white blooms cover the gracefully arching branches, every spring, without fail. Requires no special care and lasts a lifetime. Perfectly hardy, grows everywhere, in full sun or partial shade. You see it all over America and everywhere it is attractive and thriving. Makes a marvelous natural hedge or screen 5 to 6 feet tall. Plant 2 to 3 feet apart.

HARDY PRIVET HEDGE

H 2 Hardy Russian Privet (Amoor River North)—If you do not know what hedge to plant, we recommend this very highly. It is by far the most popular hardy trimmed hedge in the northern states. It makes a permanent hedge, lasting for generations. Not only adds beauty, it also protects your yard especially if you have a corner lot. It is fine for a division line between yards. Can be trimmed to any desired height, making a thick, dense hedge, without thorns, right down to the ground. Requires trimming only twice during the summer. But if you trim it 3 or 4 times, it becomes more dense and bushy. Leaves are rich, dark green and hang on until very late fall. Plant 1 foot apart.

CHINESE ELM

H1 This is America's fastest growing hedge, making a good showing in just a few months. It is the first to leaf out in the spring and one of the last to shed in late fall. You can trim to any desired height from 3 to 10 feet, as a hedge or tall screen. The more you trim it the more dense and compact it becomes. We recommend that after planting, you cut off nearly all the top, leaving only 3 to 4 inches above ground. Plant 8 inches apart.

K10 ACID PEAT MOSS

K11 NEUTRAL PEAT MOSS

Large Bags, 65 to 75 pounds, Each \$2.25, 2 for \$4.25
Half Bags, 30 to 35 pounds, Each \$1.25

We advise buying two bags as freight charges on two large bags are but little more than for one. Shipped direct to you from the peat bogs in northern Iowa. You pay the express, freight or truck charges. Order early so it can be shipped by freight or truck as the charges are much less than express, but takes longer. We have 2 kinds of Peat Moss. One is Acid for using with Azaleas, Blue Hydrangea and acid-loving plants. The other is Neutral which is used with Roses, Shrubs, Perennials, Lawns and general use. It mellowes heavy soils and helps bind sandy soils. It is a pure source of humus, needed by most soils. It is weed-free and odorless. Helps soil hold moisture and retain plant food. It is one of nature's best soil conditioners. Highly activated with beneficial bacteria. Mix 1/4 Peat Moss with soil when planting and you get better results.

For Insects and Diseases Use

BUG-DUST-O-CIDE

1. NON-POISONOUS TO HUMANS AND DOMESTIC ANIMALS WHEN USED AS DIRECTED.
2. MULTI-PURPOSE—Has a triple action on certain insects—as a stomach poison, a contact poison and as a repellent.
3. EFFECTIVE—Satisfied users everywhere recommend Bug-Dust-O-Cide.
4. EASY-TO-USE—ready to apply—no mixing, no fuss or bother.

6 FRIENDS OF THE GARDENER

These supplies are carried in stock at all times. Available for prompt shipment.

FORCE'S MOLE KILLER

You simply put the pellets in the runways. The moles like them and eat them and die. That is all there is to it. Keep a supply on hand to use when the mole's runways appear. Guaranteed to work or your money back. Postpaid.

K 4 75 Pellets for 50c.
K 5 185 Pellets for \$1.00.

RA-PID-GRO

For Better Flowers, Better Lawns, Better Shrubs and Trees, Better Gardens

Here is a product that we would like to have everybody use. When planting, you simply put 4 level teaspoonfuls of RA-PID-GRO in 1 gallon of water (8 level teaspoonfuls in 2 gallons water, etc.). Soak the roots of Roses for 3 minutes. They will start much more quickly and bloom much sooner. Soak roots of shrubs for 3 minutes; roots of trees for 4 minutes; just dip Perennial roots for a second or two. Strawberry plant roots are dipped for just a second or two. Raspberry, Blackberry, Boysenberry, Healthberry roots, Grapes, Gooseberries, Currants and Blueberries are dipped for one minute. After dipping, plant right away, keeping all roots protected from sun and wind. When through planting, pour the solution around the newly planted stock. Then every 2 to 3 weeks, use RA-PID-GRO and you will get the very best results. 1 pound makes 22 gallons of quick-acting fertilizer.

It is marvelous for invigorating lawns. For using on the lawn and large areas, we have a special nozzle. It costs \$1.50 Postpaid. It automatically measures out the right amount of RA-PID-GRO. However, you do not need this nozzle for ordinary garden use. You simply put RA-PID-GRO in water in a pail or sprinkling can, then pour it around the stock you wish to fertilize. We realize the soil in most yards is not as fertile as it should be. RA-PID-GRO will overcome this and you will be greatly pleased at the increased growth you get. Try it at our risk. If you are not entirely pleased, your money will be refunded. Instructions on every package.

Shade Trees FOR BEAUTY AND COMFORT

SUGAR MAPLE

T 6 The Sugar Maple (also called Hard Maple) is native to almost every state east of the Rockies excepting the gulf states. It is a permanent tree that lasts for generations. There are many homes in America which are identified by their magnificent Sugar Maples. There are two strains, a northern and a southern. Our trees are the northern. This strain colors more attractively in the fall when its luxuriant foliage is marvelous with tints of orange, gold and scarlet. It makes a large, spreading, perfectly formed tree, of which you will always be proud.

Send Living Gifts

That Will Be Cherished for Many Years

For Christmas, Birthdays, Mother's Day, Easter, Anniversaries, For Any Occasion

Each year more and more people wish to send their friends and loved ones Living Gifts. It is very easy to do. We have two plans. We guarantee satisfaction to you and to those receiving the gifts.

No. 1

You select from our catalog whatever you wish us to send. Give us the name and complete address to whom you want it shipped. We will send this party a suitable Gift Certificate giving your name as donor and listing the stock (without prices) that will be shipped at the proper planting time.

No. 2

If you prefer to have them make their own selections, then you simply send us the name and complete address and enclose check or money order for the amount you wish to give. We will send this party a suitable Gift Certificate good for this amount, giving your name as donor. We will also send our catalog stating that they are to select from it whatever they wish for the amount of the Gift Certificate. This stock will be shipped at the proper planting time.

Year after year, these Gifts will be a reminder of your thoughtfulness.

INTERSTATE'S NEW HAMBURG HYBRID ELM

T 3 This is an entirely new tree, a hybrid Elm that grows even faster than the Chinese Elm. Yet it does not break up as the Chinese Elm sometimes does. Resistant to diseases and insects. It makes a shapely tree with large, dark green leaves.

The original tree, growing in Fremont, Nebraska, was selected by Mr. Lloyd Moffet. It has never shown the least sign of winter or cold injury, standing far below zero for many years. Also it grows rapidly right through summer's heat.

We believe it will fill a tremendous need throughout America, North to South, East to West. It grows rapidly yet will make a permanent handsome tree, not as large or spreading as the American Elm. Ideal for lawn or parking planting.

CHINESE ELM

America's Most Popular Shade Tree

T 20 Because of its extremely rapid growth, the Chinese Elm has become popular. Under ordinary conditions, it grows 5 feet a year. In just a few years, it makes excellent shade. It is very valuable for those sections of America where most other trees will not live or thrive, where it is hot and dry, even in alkali. It seems to thrive even in the poorest soil. But in those sections where Maples, Oaks and American Elm are grown, we advise planting the Chinese Elm only as a temporary tree for quick shade. There are hundreds of thousands of such homes, which would be more attractive and more comfortable if some of these quick-growing Chinese Elms were planted.

A 5 to 6 ft. Tree, 7 Years after Planting

A WINDBREAK IN JUST 5 YEARS

A windbreak around your home and farm buildings makes living more comfortable both summer and winter. It breaks up the dust storms and blistering hot winds and the biting cold winds and drifting snows. It will take less fuel to heat your home. Your livestock and poultry will show greater production and profit. Chinese Elm is the fastest growing, drought resistant, economical tree you can plant for a windbreak. In three years you will see a big growth, in 5 years you would not sell it back for hundreds of dollars. These young Chinese Elm Seedlings are especially fine for windbreak planting. Plant them 5 to 6 feet apart. Two rows in zig-zag fashion help a lot, but three or four rows are better.

12 to 18-inch Chinese Elms 5 Years after Planting

TT 23 CHINESE ELM WINDBREAK SPECIAL 250 for \$5.00

Fine 18 inch plants, Postpaid

For windbreaks, the Chinese Elm is certainly a great blessing. Plant this spring and in a few years you wouldn't part with them for many times what you paid for them. Every day, summer and winter, they add to your comfort and make you money by their protection. For best results, plant 3 or 4 rows.

FOR QUICKER EFFECT - Plant these Root-Pruned-2 Yr. Seedlings

T 22 We have a fine field of 2-Year Chinese Elm Seedlings. These have been grown in wide rows and root-pruned which means a better root system. If you want to plant quite a lot of Chinese Elm Trees and hesitate about paying the higher price for the transplanted shade trees above, then these will do very well for you. The price is so low you can afford to make liberal plantings around your home and buildings, giving shade in summer and protection from the hot winds of summer and cold blasts

of winter. A planting of Chinese Elm is a blessing on any farm and especially so in those parts of Texas, Oklahoma, Kansas, Nebraska, Colorado, Wyoming and the Dakotas, where so few other trees thrive. These 2-Year Chinese Elm will grow rapidly and are a great value at these prices. They will be shipped at planting time by express.

SILVER BIRCH

T 14 This beautiful tree is also called the Cut Leaf Weeping Birch. Its bark is gleaming white, both summer and winter. Its leaves are delicately cut. A single specimen or a group adds distinction to a lawn. The grass will grow right up to the trunk. The white bark comes a year or two after planting. Does best in the northern and eastern states.

Below, Washington Hawthorn

WASHINGTON HAWTHORN

T 31 Washington Hawthorn is an ornamental tree that grows 15 feet tall. Has white flowers in the spring and in the fall is full of bright red fruit, red haws, a little smaller than marbles. Also in the fall the foliage turns orange and scarlet making a striking appearance. It is useful as a specimen and is especially fine for background planting and across the back of the yard as it makes a perfect screen that is long-lived and never needs pruning. Easy to grow, it makes itself at home and is hardy everywhere excepting coldest sections like Dakotas and Minnesota. We doubt if ever before has this fine tree been offered at such low prices.

PINOAK

The Most Majestic of Shade Trees

T 11 Everybody thinks the Oak is a grand tree and always admires it. Many people think they grow slowly. Careful records have shown that the Pin Oak, the fastest growing of all the Oaks, actually grows almost as fast as the American Elm. It is one of the most enduring of all trees. A tree planted now will be a great pleasure to you and for generations to come. For street and lawn planting it has no equal. It grows in symmetrical, pyramidal form and at maturity towers 60 to 80 feet high. The rich green foliage is deeply cut and colors to a glorious coppery-red in the fall. Plant Pin Oak and every year hereafter you will be thankful.

K 26 ROSS ROOT FEEDER

for watering, for fertilizing

Each \$3.50 Postpaid

with one dozen regular
fertilizing cartridges

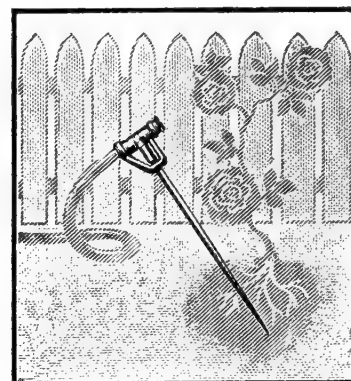

The Ross Root Feeder puts the fertilizer and water directly to the roots. Produces healthier and more vigorous growth. Especially fine for roses, shrubs and trees. You can fertilize and water at same time or you can just water. Needed all season. In the spring it is a quick booster for old and new plantings. In the summer insures food and water during dry spells. In the fall very necessary to put moisture down at the roots to prevent winter damage. Simple, easy to use, nothing to get out of order and lasts for years. For watering, just attach to hose. For fertilizing, place cartridge in the chamber, attach to hose and turn on the water. Push it into ground to desired depth. No water or fertilizer is wasted. Feeder puts it DOWN AMONG THE ROOTS WHERE IT IS NEEDED.

Keep a supply of cartridges on hand. Box of 12 for **\$1.00 Postpaid**

K 27 Regular cartridge (8-16-8) is used for most plants, shrubs, roses, trees.

K 28 Acid cartridge (10-20-20) is used for evergreens and acid loving plants like Azaleas, Blue Hydrangea, etc.

K 29 6 Regular and 6 Acid Cartridges.

Beauty for all the Seasons

SCARLET MAPLE

T 10 Scarlet Maple (Rubrum). In the fall, this is the most gorgeously colored tree in all America. The leaves are a brilliant rosy-scarlet (like fall sumac leaves), much brighter than pictured here. Now priced lower so thousands can plant them. In the spring, the tree is full of scarlet flowers followed by bright red seed. The spring and summer foliage is also attractive, deep green above and blue-green below. Makes a large, shapely, long-lived tree that is not so dense but grass grows underneath. Very valuable for lawn and parking. Grows from the gulf to Minnesota.

6 to 8 feet, Not Postpaid, **Each \$2.95, 2 for \$5.50**

5 to 6 feet, Not Postpaid, **Each 2.50, 2 for 4.50**

4 to 5 feet, Not Postpaid, **Each 2.15, 2 for 3.95**

T 5 Purple Maple (Schwedler's). Beautiful in spring, summer and fall. In the spring, the foliage is a rich reddish-purple. In the summer, it is a bronzy-green. In the fall, it is attractive golden-yellow. It is not a fast grower but the growth is so symmetrical and perfect that even a young tree has a commanding appearance. Especially suitable as a specimen in the lawn and for the parking.

Prices same as Scarlet Maple Above

Scarlet Maple

WHITE BIRCH

T 8 White Birch is a rare form, grown as clump with 3 or more distinct trunks with only one root system. It gives a very attractive naturalistic effect. The bark turns white after 2 or 3 years and stays white winter and summer. The green foliage turns a pleasing yellow in the fall. Grows 25 to 30 feet tall and the grass grows right up to the trunks. Perfectly hardy, easy to grow, thrives nearly everywhere except in the southern states. This is probably the most satisfactory of all Birches.

Golden Chain Tree

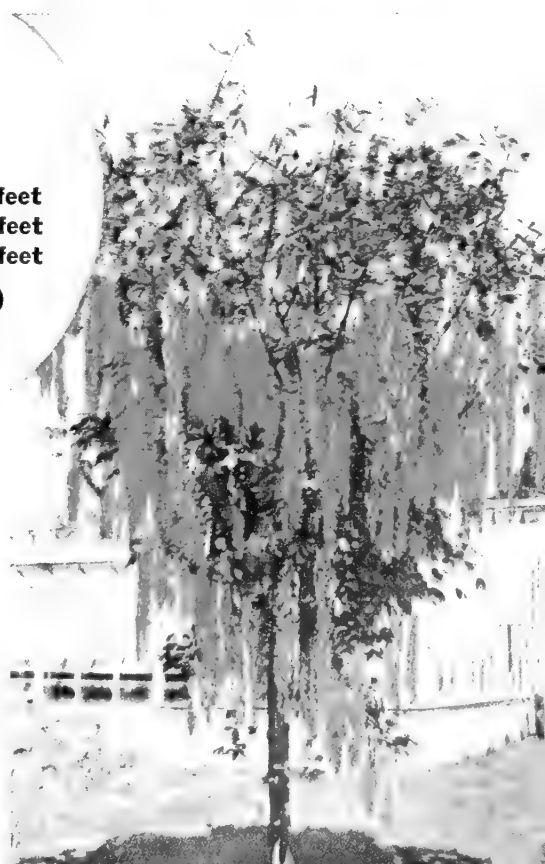

VOSSI

T 2 One of the rarest and most beautiful low growing ornamental trees. In the spring it is completely filled with golden flowers, in graceful clusters 12 to 18 inches long, a sight that stops all who pass by and makes your yard a center of attraction. Has proven hardy at Hamburg but we do not advise planting in northern Iowa, Minnesota and similar extremely cold sections. Easy to grow, not fussy about soils. But it does appreciate being planted in a spot protected from both hot summer winds and winter's cold blasts. It will reward you greatly. Starts blooming in only a year or two after planting.

Lovely Flowering Cherry

T 9 Kwanzan Japanese Flowering Cherry. Millions of visitors to Washington, D.C. have marveled at the beauty of the Japanese Flowering Cherries around the Tidal Basin as pictured here. Now you can have them in your own yard. Kwanzan, the variety we offer, in the early spring is completely covered with the double bright rosy-pink flowers. It makes a rather low-growing, spreading tree. With us the tree has gone through 21 below zero without damage. But we do not recommend planting it in extreme cold sections like northern Iowa, Minnesota, Dakotas, etc. These young trees which we send you will start blooming within a year or two after planting. They will grow in full sun or partial shade.

CRIMSON KING Maple

T 7 Crimson King Maple (Plant Patent No. 735). Last spring was the first time we offered this remarkable new tree. Neighbors who see it want one just like it. It is the best purple-leaved Maple, a great improvement over the Schwedler's Purple Leaf Maple. In the spring the foliage is a much richer purple and moreover Crimson King carries this deep purple foliage through the entire season until the leaves drop in the fall. It adds a touch of color to the landscape, a welcome change from the prevalent greens. Very hardy and easy to grow. Not a rapid grower but each leaf, every inch is strikingly attractive. Unfortunately we have less trees this spring than last. These trees are one-year old mostly not branched but they start branching soon after planting. Too large to go by parcel post, we ship them by express not prepaid.

Glorious Floribundas

Bloom June to Frost—Remarkably Hardy

Becoming increasingly popular because the plants are hardy, disease-resistant and bloom so freely. Plant in groups, beds or borders, 18 to 24 inches apart. All roses are POSTPAID.

C 89 Chatter (Plant Patent 739). Clusters of bright crimson fragrant flowers continuously from June to October. Hardy, disease-resistant, grows 18 inches tall. We think it the best of this color. Makes a marvelous bed or border.

C 191 Geranium Red (P.P. 811). The big 4 inch camellia-like flowers have same vivid red color and same spicy fragrance as the red geranium plant. You will love it.

C 86 Glorious (P.A.F.). This new rose has clusters of large vivid cerise fragrant flowers all season. 30 inches tall.

C 87 Goldilocks (P.P. 672). The first bright yellow floribunda. Fully double fragrant flowers in clusters from late spring to freezing. 24 inches tall, extremely disease-resistant.

C 192 Pinocchio (P.P. 484). Clusters of salmon-pink flowers all through the season. About 2 feet tall.

C 193 Red Pinocchio (P.P. 812). Clusters of lovely flowers, carmine shaded scarlet. 20 inches tall.

C 95 World's Fair (P.P. 362). The first rose to win AARS award. Especially fine in a bed or border. Flowers are 3 to 4 inches across, velvety deep crimson. 24 inches tall.

C 85 Fashion scored the highest of the All America Rose Award winners for 1950. It was the only Floribunda to win and is considered the finest ever introduced. Always covered with clusters of exquisite flowers in a color entirely new in roses, a sparkling coral suffused gold. It catches the eye no matter where planted and its old-rose fragrance is delightful. Hardy and makes a very bushy plant 24 inches or so tall. The blooms are very long-lasting, making it ideal for bedding. Because of its lovely and distinctive new color and its freedom of bloom, we believe the demand will be enormous. So we suggest ordering early to make sure that you will be one of the first to have this sensational new rose. **POSTPAID.**

Mission Bells

All American

Winning an All America Rose Selection Award is the highest honor a rose can achieve in America. This symbol AARS identifies award winners. For 1950 four roses won awards, three hybrid tea everblooming roses, Capistrano, Mission Bells and Sutter's Gold and one Floribunda, Fashion, shown on page 41. A rose has to be extra good to win an award because it is tested by experts in trial rose gardens in all sections of the U. S. Not only are the flowers superior but also the plant must be healthy and vigorous. They cost but little more than ordinary varieties and are well worth the difference. All roses are POSTPAID.

C 186 Mission Bells (Patent applied for). An outstanding new rose that won All American Rose Selection Award for 1950. A healthy, vigorous grower that blooms freely. The pointed buds open into large, high-centered flowers often 5 to 6 inches across. Color is brilliant shrimp-pink shaded glowing salmon. Fragrant.

Each \$2.50, 3 for \$6.25

Extra Heavy Specimen Plants, Each 2.75, 3 for 7.00

C 187 Sutter's Gold (Patent applied for). This fine new rose not only won All America Rose Selection Award for 1950 but also won the Gold Medal in the world famous Bagatelle trials in Paris, the first time a rose has won both honors the same year. The long pointed buds are bright yellow heavily shaded orange and red. Open into lovely high-centered flowers of richest golden yellow. Most fragrant of all yellow roses.

Each \$2.50, 3 for \$6.25

Extra Heavy Specimen Plants, Each 2.75, 3 for 7.00

C 185 Capistrano (Patent applied for). A rose that won All America Rose Selection Award for 1950 because it combined a very lovely flower on an exceptionally strong growing, healthy plant. Large flowers of an unfading rosy-pink, richly fragrant, on extra long stems, produced freely.

Each \$2.50, 3 for \$6.25

Extra Heavy Specimen Plants, Each 2.75, 3 for 7.00

Sutter's Gold, lower left

Award Winners

C 76 Tallyho (Plant Patent 828). This grand rose and Forty Niner were the only award winners in 1949. The healthy, vigorous bush produces constantly from late spring to frost, the big, fully double, long-lasting, spicily fragrant flowers. Blooms come singly on long stems fine for cutting. Color is a deep rose shaded soft red with outside of petals almost crimson.

Each \$2.00, 3 for \$5.00

Extra Heavy Specimen Plants, Each 2.25, 3 for 5.75

C 18 Lowell Thomas (Plant Patent 595). The perfect buds open into charming flowers of the purest clear yellow. Come singly on long stems and have a delicate fragrance. Exceptionally fine.

Each \$1.50, 3 for \$3.75

Extra Heavy Specimen Plants, Each 1.75, 3 for 4.50

C 31 Forty-niner (Plant Patent 792). This 1949 All America Rose Selection Award winner is probably the brightest colored rose ever introduced. Inside of petals is vivid red and the outside, chrome yellow. Long pointed buds open into well-shaped flowers, fragrant, and lasting a long time. Very few thorns. Extremely healthy, vigorous bush.

Each \$2.00, 3 for \$5.00

Extra Heavy Specimen Plants, Each 2.25, 3 for 5.75

Peace

C 58 Peace (P.P. 591). Generally conceded to be the greatest rose ever created. The perfect buds slowly open into large, fragrant, fully double flowers. Its greatest charm is the changing panorama of colors. The buds are rich gold edged cerise. As the outer petals unfold the gold changes to canary then lightens to creamy ivory. The cerise edge gradually deepens and becomes broader so the fully open flower appears a sparkling cerise with a creamy-yellow base. Last unusually long, beautiful at all stages. A vigorous, healthy bush.

EVERBLOOMING
Dr. J. H. Nicolas
CLIMBING ROSE

(Plant Patent No. 457)

C 165 Made from a color photograph this picture shows the beauty and freedom of bloom of this remarkable new rose. From late spring to hard frost the fully double, 50 to 60 petals, deep rose-pink flowers are produced. Very fragrant and they come on long stems fine for cutting. Very fine as a pillar rose. Hardy as Paul's Scarlet and disease resistant. Fertilize it well as the more it grows, the more it blooms. The most popular climber we ever sold.

Each \$1.50, 3 for \$3.75, 12 for \$15.00
Postpaid

INTER-STATE'S Climbing Roses

C 170 Gold Rush—a new everblooming climber with large yellow flowers

Each \$1.50

C 161 Paul's Scarlet—This famous rose is the most popular red climbing rose ever created. A mature plant in full bloom is a sight that simply stops everybody who passes by. It is a solid sheet of blazing scarlet. The color does not fade but is as bright when last petal falls as when it opened. The flowers come in clusters on long stems. Plant them on a trellis or porch. A row of them along the fence will be the talk of the town.

Each \$1.00, 3 for \$2.50

1 Coral Pillar
1 Zephirine Drouhin**

CC 171

All 3 for \$3.00

Postpaid

C 166 Zephirine Drouhin—It is unfortunate that this variety has such a difficult name. Those who have visited Breeze Hill, will remember the large central arbor which was completely covered with this wonderful rose. It is hardier than most climbers and a very strong vigorous grower with healthy rich green foliage. Perfectly thornless. In the spring it is completely covered with the large unfading American Beauty rosy-red flowers, extremely fragrant. You also get some blooms in the fall. Plant it by the porch, arbor, pergola, fence or any place you want a strong growing climber with beautiful flowers. **Each \$1.25**

EVERBLOOMING CLIMBER SPECIAL

**1 Blaze
1 City of York
1 Dr. J. H. Nicolas**

CC 173

All 3 for \$3.50

Postpaid

For mass display of color, hardly anything can equal climbing roses in full bloom. Used on porches, arbors, trellises and trailing over fences. All these climbers are hardy, but we recommend that winter protection be given in cold sections. Set 3 to 4 feet apart. All climbing roses are postpaid.

C 155 Blaze (Plant Patent 10)—An ideal pillar rose with clusters of brilliant scarlet flowers covering the plant in June and repeat intermittently all season. Holds this bright color in the hottest sun. Plant in good soil as the more it grows, the more it blooms. If you cut off the old flowers, new bloom shoots will grow from the first eye below the old flower cluster.

Each \$1.50, 3 for \$3.75

Dr. J. H. Nicolas SPECIAL

**2 Dr. J. H. Nicolas
1 Blaze**

CC 174

All 3 for \$3.75 Postpaid

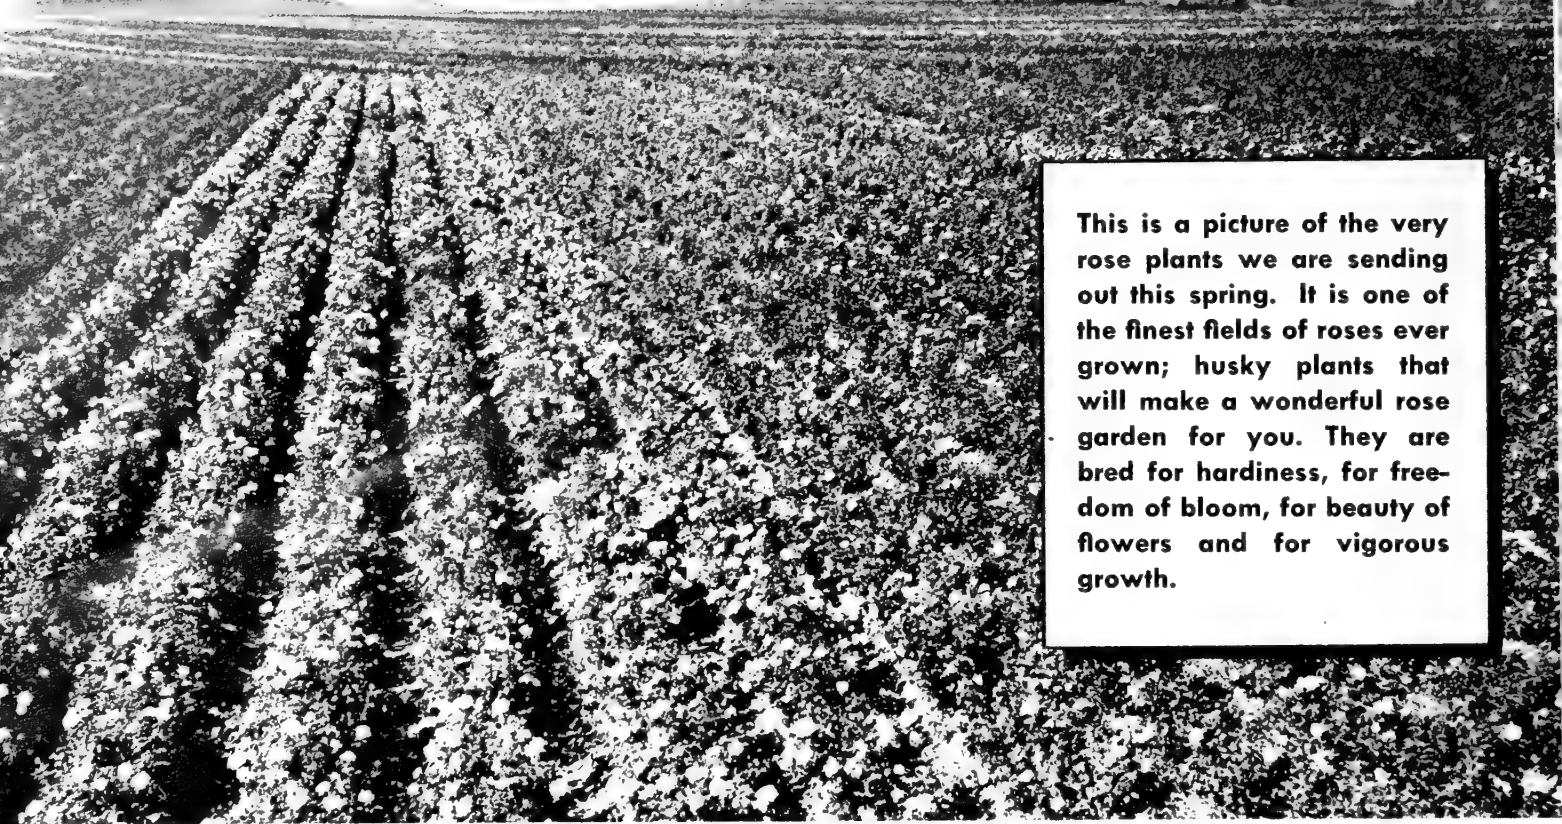

C 156 City of York—Many rose experts consider this the best new hardy climber. For several weeks in late spring and early summer, the vigorous plant is covered with hundreds of the 3-inch snow-white flowers. So fragrant that they perfume the entire area. There is some recurrent bloom during summer and fall. It is a strong, healthy grower, hardy as Paul's Scarlet. Its deep green foliage fairly sparkles in the sunlight.

Each \$1.25, 3 for \$3.00

C 154 Coral Pillar—Originated by Dr. W. E. Lammerts, this new variety is a perfect pillar rose. The flowers are large, a brilliant blending of rose, pink, carmine, gold and apricot. Hardly ever out of bloom from spring to frost. When your neighbors see it, they will want one, too. **Each \$1.50**

C 169 White Dawn—A new everblooming very hardy climbing rose created by Dr. Longley of Minnesota. White flowers produced continuously June to frost.

Each \$2.50

This is a picture of the very rose plants we are sending out this spring. It is one of the finest fields of roses ever grown; husky plants that will make a wonderful rose garden for you. They are bred for hardiness, for freedom of bloom, for beauty of flowers and for vigorous growth.

Famous Everblooming Roses

The Rose is rightfully called the Queen of All Flowers. None other can equal its fragrance, its colorful beauty, its grace, its freedom of bloom from spring to frost—each flower bringing its message of joy, cheer and beauty.

Can you think of another hobby that will provide more pleasure and more beauty for you than growing roses? There is a thrill when you walk into a rose garden and smell the delightful fragrance of the beautiful flowers.

Each year many thousands buy from this fascinating selection of glorious, hardy, ever-blooming roses. They will commence blooming 7 to 8 weeks after planting. PLANT ROSES EARLY, around the time when people are putting in early gardens. Plant 20 to 24 inches apart. With each order we send Planting Instructions telling you how to plant and care for your roses.

These are all strictly first quality, hardy, field-grown plants. This season they are exceptionally fine, vigorous and husky. Some prefer to plant extra heavy bushes so we are making a special grade selecting the extra large, specimen plants, extra well-branched with extra strong root system. We also assure you that our regular 2-Year No. One grade will satisfy critical buyers. They are the kind which have made Inter-State roses famous all over America. The Standard 2-Year Medium (No. 1½ grade) Plants are smaller than the 2-Year No. 1. They will bloom this summer and are a very good value.

Postpaid prices on all roses on pages 50 and 51 (except Allure and Heart's Desire)

C 12 Allure (Plant Patent 886)—A new rose we are introducing this spring. Both we and Mr. H. C. Swim, the originator, think that it is the finest rose of its color. In the first place the plant is so healthy, vigorous and free-blooming, with glossy leathery foliage. It won a First Certificate at the Famous Bagatelle Gardens. The buds are large, pointed, perfect form and

gradually unfurl to a very large, high-centered flower with a pleasing fragrance. It lasts a long time. The color is a rich shining Neyron rose suffused with gold and tinted salmon. When fully open the flowers are 5 to 6 inches across. They come singly on long stems, very fine for cutting. Has very few thorns. A wonderful rose with a great future. Pictured on page 43.

Each \$1.50, 3 for \$3.75

C 20 Caledonia—Long buds open into double, high-centered flowers of ivory changing to pure white. Come singly on long stems. Delicate fragrance.

C 22 Christopher Stone—A most exciting new rose—a brilliant, sparkling scarlet-crimson without a trace of blue. Shapely long pointed buds open into large attractive flowers with the true old damask rose fragrance. A healthy, vigorous grower and exceedingly free-bloomer. Stands lots of heat. One of the best bright red roses. Pictured on page 42.

C 21 Condesa de Sagato—large, fragrant flowers of fiery copper-red inside and rich yellow outside. Strong, healthy, vigorous grower and free bloomer. It is one of the great roses of all time. See page 43.

C 23 Contrast—A strikingly beautiful two-tone rose, the inside of the petal is cerise-rose with a brightening touch of orange, and the outside is satiny white. The flowers are very full and double, fragrant and produced abundantly throughout the entire season. Fine in the garden and for cutting. It is a hardy, husky, vigorous grower, a rose that "can take it."

C 25 Duquesa de Penaranda—A most intriguing color of orange-apricot, with deeper coppery tones, large pointed buds, sweetly perfumed and long lasting. A tall, strong grower with beautiful light green shiny foliage. One of the first varieties to bloom in the spring. Pictured on page 42.

C 27 Editor McFarland—All through the season, the lovely fragrant, glowing pink flowers are produced on long, strong stems, fine for cutting. The buds are perfect. We consider this one of the finest pink roses ever introduced.

C 28 E. G. Hill—Large flowers of very lasting dazzling scarlet-crimson, never fading or turning blue, but actually becoming deeper red as they open. The flowers are borne on long stems and are very fragrant. Its brilliant color, extra freedom of bloom and lasting color qualities have made it so popular.

C 26 Edith Nellie Perkins—One of the finest of all roses. The long, pointed buds come on long stems and open into perfect flowers of orange-cerise and salmon tinged gold inside. Fragrant. Grows vigorously and blooms freely.

C 30 Etoile de Hollande—The perfect buds open beautifully into glorious perfect flowers of velvety crimson. Incomparable fragrance. The bush is strong, free branching and healthy. Fine for cutting.

C 34 Frau Karl Druschki—The magnificent white rose that is loved by all. Immense long, pointed buds open into graceful flowers that are unsurpassed for form and the color is the clearest, pure white. Perfectly hardy. Such a vigorous grower you should plant them farther apart.

C 36 Golden Dawn—This lovely rose has taken the entire world by storm. The gorgeous buds of yellow have splashes of carmine and open into large, fragrant flowers of rich yellow. Hardy, vigorous, free-blooming. Pictured on page 43.

C 37 Golden Rapture—Exceedingly fine new rose with fragrant flowers of clear golden yellow. Exquisite buds on long stems, fine for cutting as they last so long.

C 14 Heart's Desire—(Plant Patent 501)—So fragrant that a small bouquet will perfume a room. The buds are perfect, long pointed and open into large graceful double flowers. The color is an extremely pleasing shade of scarlet-crimson. The flowers come on long stems, fine for cutting. Hardy, healthy, vigorous grower and bloomer. A magnificent rose. Pictured on page 42. **Each \$1.50, 3 for \$3.75**

C 44 K. A. Victoria—Absolutely perfect, fragrant flowers of ivory-white. An old favorite that even today is unsurpassed.

C 46 Margaret McGredy—At first the color is a bright orange-scarlet that lightens to a rich carmine and is beautiful at all times. A healthy, vigorous grower that is always in bloom.

C 47 McGredy's Ivory—A magnificent creamy-white rose that is fragrant and deep-petaled. Buds are long pointed, opening into very large, double flowers. Many consider it the finest white rose. Pictured on page 42.

C 48 McGredy's Scarlet—A wonderful rose, beautiful in the garden and fine for cutting. The large flowers of luminous carmine-red are produced generously from spring until frost.

C 49 McGredy's Yellow—This is our favorite yellow rose. The color is so soft and clear and pure. The flower has a charm and grace all its own and entirely distinct. A strong grower and free bloomer. Pictured on page 43.

C 51 Mme. Joseph Perraud—This outstanding rose is pictured on page 42. A wonderful exhibition and garden rose. The long slender buds open into fragrant full flowers of nasturtium buff flushed orange. Very vigorous. Large, glossy foliage.

C 52 Mme. Jules Bouche—A very fine white garden rose. The sweetly scented blooms are produced very freely all season and last a long time when cut.

C 55 Mrs. P. S. du Pont—From early summer until freezing this rose is a glorious sight with its rich yellow flowers. Long pointed buds, fragrant, profuse bloomer. It was the favorite yellow rose in our World's Fair Rose Garden in Chicago.

C 59 Picture—We consider this one of the very finest pink roses, a clear pink with just a trace of salmon to give it a warm glow. Delightfully fragrant. The blooms are perfect in bud and when open. Blooms continuously.

C 60 Pink Dawn—A new rose. Fine for gardening and cutting. Buds are lovely, and open into large, fully double flowers of clear, purest pink. Extremely fragrant. A vigorous grower, hardy and free-blooming.

C 62 Poinsettia—This free-blooming rose brings to you the brilliance, the glowing red color of the Christmas Poinsettia. Long pointed buds, ideally formed, fine for cutting, free-blooming.

C 64 Pres. Hoover—A glorious combination of cerise-toned orange, scarlet and yellow. Richly perfumed, long stemmed and free-blooming. One of the most beautiful roses ever introduced.

INTER-STATE ROSE DUST AN EXCELLENT DUST FOR ROSES

**Convenient to Use
Effective in Results
Economical in Price**

This Rose Dust contains the necessary chemicals for the control of fungus diseases such as Black Spot and Mildew, also aphids and leaf eaters. It is very easy to use as it comes in a handy dust gun ready to use, no mixing, no fuss, no bother. Clean, healthy foliage is essential to grow good roses, also other plants. We suggest that you follow a regular dusting schedule, starting early just as soon as the plants are fully leafed out. Dust often, dust regularly and dust thoroughly, keeping the plants healthy. You will be astonished at how much better a healthy plant blooms. Complete instructions on every package. Guaranteed satisfactory or money refunded. Though this dust is primarily intended for Roses, it is also effective on other plants.

Duster postpaid for \$1.60**
**K 151 3 Pounds Dust
postpaid for \$1.60**

C 66 Radiance, Pink—The great pink rose, planted everywhere because it has made good all over America. Fragrant flowers are produced abundantly all season.

C 67 Radiance, Red—America's great red rose. Vigorous grower, hardy, healthy, free-blooming, with a true rose fragrance.

C 72 Soeur (Sister) Therese—One of the best yellow roses. The flowers are a bright yellow with some petals edged carmine. The fragrant blooms come almost in candleabra effect. A healthy, vigorous, free-blooming bush.

C 75 Talisman—A glorious combination of orange-yellow and rose-red. The buds are long pointed, flower is double, high centered. The fragrant flowers are freely produced all season and are especially fine for cutting as they come on long stems. The fall bloom is exceptionally gorgeous.

C 77 The Doctor—This is considered by many to be the most beautifully colored of all roses. The long, pointed buds open into simply enormous, yet graceful blooms, very fragrant. It is a pink with an iridescence, a sheen beyond description. Each flower is so perfect, so gorgeous, that you will consider it almost priceless. Far more beautiful than pictured on page 43.

INTER-STATE'S Get-Acquainted Special

Vigorous growers, free-blooming, these are six of the best roses. This Special Offer is made so that you can plant them in your own garden and find out for yourself the satisfaction, the pleasure, the beauty that Inter-State roses have brought to hundreds of thousands. Post-paid.

INTER-STATE Rose Specialties

INTER-STATE TREE ROSES

Tree Roses are grown by budding the rose on a tall stem 40 inches above the ground, forming a bushy head at the top of this stem. The flowers produced on Tree Roses are even larger and finer than those on regular bush roses. They bloom from spring to frost. Very effective in the garden, giving you their fragrance and loveliness at eye-level. Our Planting Guide, sent with each order, gives simple method of winter-protection.

EVERBLOOMING FLORIBUNDAS

For garden beauty, Floribundas are ideal. They are hardy, very disease-resistant. The flowers come in clusters and are produced continuously from spring to frost. Put in groups, beds or borders, 18 to 24 inches apart.

C 93 Dagmar Spath—Our finest white. 24 inches tall.

C 90 Else Poulsen—Magnificent bright pink. We know of nothing better in this color. 30 to 36 inches tall.

C 92 Improved Lafayette—Many think it finest of all for bedding or border. Its cheerful cherry-red flowers are produced so lavishly. 30 to 36 inches tall.

C 88 Lipstick—Brilliant orange-red. 36 to 42 inches.

C 100 Mrs. R. M. Finch—Apple-blossom pink. Very bushy plants 24 inches tall.

C 91 Pink Gruss An Aachen—Makes a bushy spreading plant about 18 inches tall, with lovely, fully-double blooms of exquisite orchid pink. Especially fine in partial shade.

C 94 Ruth Shamburger—Delicate salmon-pink. Very hardy. 36 to 42 inches tall.

Inter-State's Glads

DOUBLY GUARANTEED

We guarantee our Gladiolus bulbs to please you when you get them, ALSO WHEN THEY BLOOM. When you receive the bulbs, if you are not satisfied, return just one-half of them and we will refund all the money you paid us for all of them. Also when they bloom, if you are not delighted you may select from our catalog, without cost, anything you wish equal to the amount you paid us for the Glads. We take great care in selecting our varieties and list only the better, finer kinds. That is why we sell them by the millions, with countless thousands of satisfied customers from coast to coast.

We offer 2 sizes of bulbs. The Large are 1 1/4 to 2 inches across, the Medium are 1 to 1 1/4 inches across. All will bloom gorgeously, the larger bulbs producing bigger spikes. Plant 5 to 6 inches deep, 6 to 9 inches apart. Make several plantings, 2 weeks apart and you will have flowers for weeks. ALL GLADS ARE POSTPAID.

Medium.. **15c 25c 45c .75**

Y 72 Robinson Crusoe—This is the most unusual colored gladiolus we have ever seen. It is a creation of that wizard of new glads and peonies, Mr. E. H. Lins. Everyone who saw it at our place last summer simply fell in love with it. The flowers are very large, beautifully ruffled, with 6 to 8 flowers open at once on a tall massive spike. No other glad in the world like it. The basic color is tan, heavily marbled with rosy-chocolate. The most unique Glad ever created, it is a sensation. We have only a few hundred for sale.

Large..... Each **75c**
Medium..... Each **50c**

Y 70 Rosa Van Lima—This is another variety that everybody wants when they see it. Beautiful in the garden and especially fine for cutting. Large flowers on tall straight stems. The color is a pure, clear pink of such loveliness as is seldom seen.

3 for 6 for 12 for 25 for
Large.... **20c 35c 65c \$1.20**
Medium.. **15c 25c 40c .70**

Y 66 Royal Robes—We will never forget the first time we saw this blooming in the garden of Mr. E. H. Lins, the originator. The color is so different from other reds, rich and deep, yet not muddy or black. Beautifully ruffled, wide open flowers, perfect placement. Dr. Cason of Tennessee, a famous glad authority, reports that it was exceptionally fine for him. Florists love it; you will too. The richest red we grow.

Large, **Each \$1.00, 3 for \$2.50**

Y 71 Ruffled Beauty—One of the very best yellows. The flowers are ruffled and color is even, clear, pure yellow.

Leading Lady

Red Charm

All Gladiolus are beautiful but here are five that words cannot describe. You have to see them to realize how lovely they are. Not long ago, just one bulb would cost as much as we now ask for all five. The flowers are much larger than pictured, being 4 to 6 inches across. Perfect form, exquisite colors, wonderful spikes, each is the finest of its color. Now priced so thousands can enjoy their beauty. Described on pages 53, 54.

GG 88

30 Fine Bulbs for \$1.00 Postpaid

DOUBLY GUARANTEED

1. Guaranteed to please you when you get them
2. Guaranteed to please you when they bloom

Gladiolus are the finest of all flowers for cutting and so easy to grow. Never before have we been able to make such an offer as this. In addition to our own bulbs, we have secured from some of America's best growers, wonderful bargains in their finest glads. Also we have imported from Europe many of their choice varieties and un-named seedlings from some of the world's great hybridizers. These seedlings are new and if named would cost \$1.00 or more each.

All in all, it enables us to put in this collection gladiolus that should sell at much higher prices. All the exquisite glad colors are here—white, many shades of yellow, pink, red, blue, purple, lavender, buff, orange, scarlet, crimson, maroon, salmon, rose, apricot and some with 2, 3, even 4 colors.

They come to you a glorious collection, not individually labeled. What a garden of beauty you will have! What lovely bouquets! These are fine bulbs one inch or more across. We have millions of bulbs but order early as many as you want because this is our greatest glad offer and when these are gone, we cannot duplicate them.

Grow Prize Dahlias

Just look at these low prices
for fine Dahlias

GIANT DAHLIAS

You who delight in raising large blooms, will want these three outstanding Dahlias. Give them a little attention and you can grow flowers as large as dinner plates and brilliant as a beacon light.

B 15 Mrs. George le Boutillier—Here is one everybody likes, especially the men. Giant 10 inch flowers of rich crimson. Without doubt the greatest of all reds... **Each 50c**

B 19 Rose Fallon—Large, deep blooms of orange-amber tinted salmon-rose. Flowers are perfect form and freely produced. Simply gorgeous... **Each 60c**

B 18 Royal Pennant—Large, very deep flowers of vivid purple. Long strong stems hold the flowers perfectly. Magnificent... **Each 60c**

Mixed Collection

These Dahlias, all different, are not labeled. If you want beautiful flowers and do not care to know the names (many will recognize choice varieties), this is a very good offer. We include many kinds of which we do not have enough to list, many very fine.

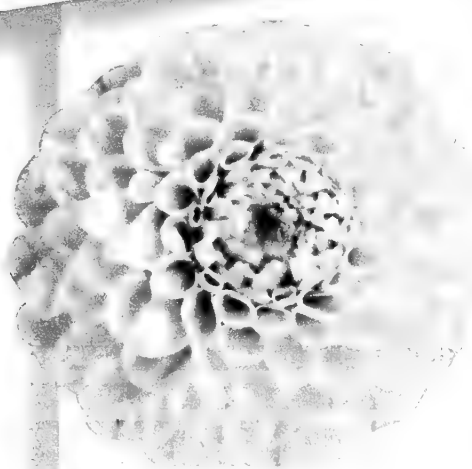

BB 31 5 for **\$1.00** Postpaid

Button Dahlias

These Button (Pompon) Dahlias have small flowers 1½ inches across, perfect in form. Produced continuously for many weeks. Beautiful in the garden, fine for cutting. You will like the rich, glowing colors. The bulbs are smaller than the larger flowered varieties but it is astonishing how freely they bloom.

BB 4 MIXED COLORS, Postpaid

4 for \$1.00, Each 30c

These are also called Ball Dahlias. They are small, 2 to 3 inches across. Tremendous bloomers, from early in the season to frost. The flowers come singly on long stems, attractive in the garden and especially fine for cutting. Every day, in season, you can cut a bouquet. The colors are so clean, bright and cheerful, and blend beautifully. Plant them freely, you will be richly rewarded.

Specialties for Your Garden

Rare Chinese Tree Peonies

For a long time we have wanted to offer these. But this spring is the first time we have enough plants to catalog them. The tops of these Tree Peonies live just like hardy shrubs and do not die back to the ground like the ordinary Peonies. Grow 3 to 4 feet tall and bloom in the spring. The flowers are large, 6 to 8 inches across. Plant them in a sheltered spot such as the east or south side of a wall, hedge, shrub or evergreen planting. A mulch of Neutral Peat (see page 33) winter and summer is beneficial. Mix a liberal amount of this Peat with the dirt when planting them. Do not trim off the branches as that will take away just that much of next spring's flowers. We do not advise planting these north of central Iowa. These Tree Peonies are for the gardener who wants something rare, a connoisseur's delight. Give them a little extra attention such as in case of late spring frost protect them. You will be greatly rewarded. We send you Potted plants. Take them out of pots when planting. Generally they bloom the second year after planting.

M 750 Chromatella—Large double flowers of bright yellow.

M 751 Flambeau—Large Double flowers, salmon-red with purple veins.

M 752 Flora—Immense, semi-double, snow-white with purple blotch at base of petals.

M 753 La Lorraine—Large, very double, soft yellow tinged salmon when opening.

M 754 L'esperance—Very large, single, primrose yellow with carmine base.

M 755 Mme. Fernand Le Maitre—Large, double, carmine rose.

M 756 Mme. Louis Henry—Large, double, carmine-pink shaded coppery yellow.

M 757 Satin Rouge—Very large, double bright blood red.

M 758 Souv de Maxine Cornu—Very large, double, yellow shaded orange-salmon.

M 759 Surprise—Large, very double, straw yellow shaded salmon and purple.

M 760 Yano Okima—Very large, semi-double, pure white. Very rare.

INTER-STATE'S GIANT PEONIES

These are the regular bush peonies, the tops die down over winter and then come up again each spring, for a lifetime. Last fall we sold so many thousands of Peonies that we do not have enough left to offer them by name. So we have just grouped them by color, Red, Pink and White. There is not one which is worth less than a dollar and some would cost up to \$5.00 by name.

LYTHRUM Morden Pink

A REMARKABLE PERENNIAL

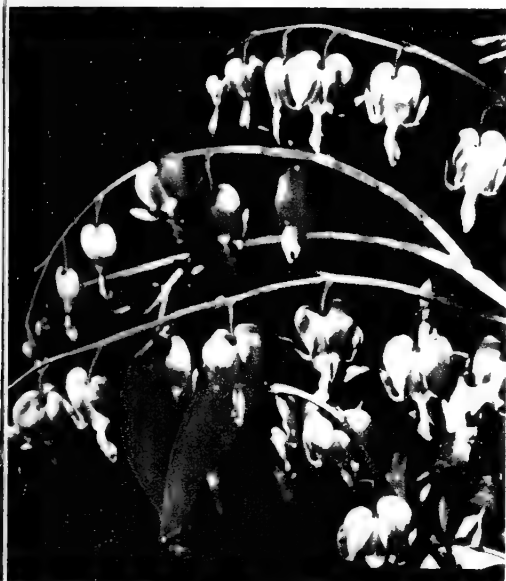

M 202 Lythrum, Morden Pink—is an outstanding perennial. It has proven satisfactory from coast to coast. Originating in Canada it is hardy even in the coldest states. Makes a neat bushy plant 30 to 36 inches tall that blooms continuously right through summer's heat. It thrives with almost no care, in sun or part shade. It is not at all fussy about soil. In the fall, the foliage turns to brilliant red. We recommend it highly as being one of the easiest-to-grow and most satisfactory perennials we have ever grown. POSTPAID.

Each 40c; 3 for \$1.00; 6 for \$1.75

Inter-State's Hardy Perennials for Shady Spots

Lily-of-the-Valley

Bleeding Heart

M 58 Bleeding Heart—A favorite in Grandmother's garden half a century ago, it is equally popular today. Grows 2 feet tall. Thrives in partial shade, but will grow in full sun. Attractive foliage. Graceful heart-shaped pink flowers in April-May. The plant becomes larger, more beautiful, each passing year. Postpaid.

Each 60c, 2 for \$1.00

M 195 Linum, Blue (Blue Flax)—Graceful, feathery foliage with azure-blue flowers almost all summer. Does well in dry, sunny places. Grows 18 to 24 inches tall.

Postpaid, 4 for \$1.00, Each 35c

M 260 Veronica, Longifolia Subsessilis—A difficult name but it is one of the handsomest blue-flowering plants. It grows about 2 feet tall and the deep blue flowers are produced July almost to frost. Good for cutting and a gem in the garden.

Postpaid, 3 for \$1.00, Each 40c

M 193 Everybody loves these delightfully fragrant white flowers. They thrive in full shade on the north side of your home against the wall where few plants will live. They also do just as well right out in the full sun. We send you clumps of 5 to 7 Pips which will bloom this season and increase in beauty each year.

**Postpaid,
3 Clumps for \$1.00,

INTERSTATE'S HARDY PERENNIALS FOR LASTING BEAUTY

Pyrethrum

M 241 Pyrethrum (Painted Daisy)—This is the superb Robinson strain, the finest we know. The flowers are larger and brighter colored, the most gorgeous reds, fine pinks and pure whites, all mixed to blend beautifully. Long stems fine for cutting. Blooms profusely in the spring and early summer. Grows about 24 inches tall. We are making a very special price so that you can plant them freely. Postpaid.

12 for \$1.85, 6 for \$1.00, 3 for 60c

Gypsophila (Baby's Breath)

M 151 Gypsophila, Oldhamiana—Great masses of small light pink flowers August to frost. Lovely in the garden, very fine for cutting. Grows 2½ feet tall.

Postpaid, 4 for \$1.00, Each 35c

M 150 Gypsophila, Pan. (Baby's Breath) Completely covered with small white flowers in July-August. In the garden and in bouquets, it gives an airy effect no other flower can give. Grows 2 to 3 feet tall.

Postpaid, 4 for \$1.00, Each 35c

M 224 Platycodon (Balloon Flower)—A very satisfactory hardy perennial. Large, showy, deep blue, bell-shaped flowers are produced all summer. Grows 18 to 24 inches tall.

Postpaid, 4 for \$1.00, Each 35c

M 293 Violet, Hardy White—This variety winters perfectly with us without any protection. A vigorous grower that produces in the early spring an abundance of the fragrant large white flowers. Has long stems fine for cutting. Thrives in shade or sun equally well. The foliage is so heavy that it makes a fine border plant, 6 inches tall, even when not in bloom.

Postpaid, 3 for \$1.25, Each 50c

HOLLYHOCKS

FOR A COLORFUL BACKGROUND

This is a magnificent strain with fully double flowers of exquisite colors. They are becoming more and more popular as people are finding out how attractive they are. Growing 4 to 5 feet tall, they are very useful in the background of the perennial plantings. Postpaid.

PLUMBAGO

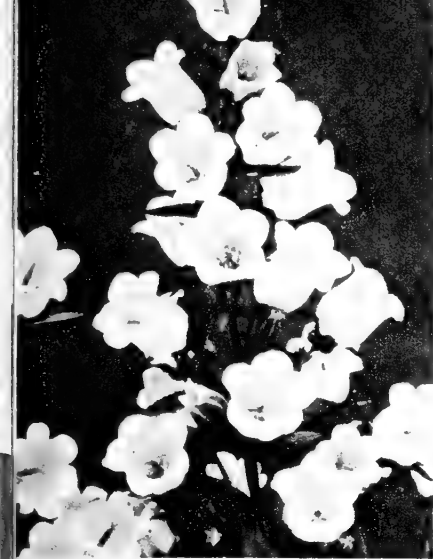

A strikingly beautiful blue flower

M 239 Visitors to our nurseries always ask us the name of this plant as they see the long rows across the field. The open flowers are a rich blue, the tiny buds a bronzy-red, giving the entire plant a beautiful and unusual appearance. It is always in bloom from July almost to frost. For an edging plant or a low-growing (it grows only 6 to 8 inches tall) solid bed, it simply cannot be beat. Postpaid. **3 for \$1.00, Each 40c**

Hardy Carnations, below

Canterbury Bells

M 65 Blue M 66 Pink M 67 White
Postpaid, 4 for \$1.00, Each 35c

M 113 Dianthus, Spring Beauty—Large very fragrant, carnation-like flowers of many lovely colors. Blooms for weeks in the spring. 15 inches tall.

Postpaid, 4 for \$1.00, Each 35c

M 155 Dianthus, Everblooming Red—The brilliant scarlet-crimson flowers are produced all summer. 12 inches tall.

Postpaid, 4 for \$1.00, Each 35c

GOLDEN SHOWER

M 85 Coreopsis Golden Shower is one of the best hardy new perennials. The bright yellow star-like flowers, 1 to 1½ inches across, are produced right through the hottest summer weather. The bright green, feathery foliage is attractive in itself. It makes a neat, bushy plant 18 to 24 inches tall that will brighten up a dull corner and add color to a border. Does well in full sun or part shade in ordinary garden soil. Try it at our risk, if you do not like it, you may select anything else you wish to the same value.

Postpaid, 3 for \$1.25, Each 50c

HARDY ASTER, Plenty

M 33 Plenty is a new variety with large 2-inch semi-double flowers of the loveliest soft blue. Blooms very freely from early September into October. A grand garden display and also fine for cutting. 3 feet tall. Priced low for such a new fine variety.

Postpaid. Each 40c, 3 for \$1.00

M 93 Hyperion Daylily (Hemerocallis)—This is the most popular variety. Very large flowers of soft yellow, delightfully fragrant. Very free bloomer. Grows 3 to 3½ feet tall. Blooms in July and August. Easy to grow in full sun or part shade.

Postpaid. Each 50c, 3 for \$1.25

Shasta Daisy, Fringed

DIANTHUS, Little Joe

M 112 This is one of our choicest hardy low-growing perennials. It makes a compact, bushy plant only 6 inches tall with handsome blue-green foliage. The rosy-red flowers, 1 inch across, are produced from late spring to freezing. Excellent for borders, foreground and rock gardens.

Postpaid, 3 for \$1.25, Each 50c

DELPHINIUMS

M 100 Cliveden Beauty—Many think this is the finest of all light blue flowers. Grows 3 to 4 feet tall and after the first great burst of bloom in early summer, it repeats at intervals. A healthy grower that lasts for many years. Lovely in the garden and very fine for cutting.

Postpaid, 4 for \$1.00, Each 35c

M 101 La Martine—This fine plant should be in every garden. The rich dark blue flowers are so lovely in the garden and for cutting. A great mass of flowers in early summer and at intervals all summer. When you cut a flower spike, another grows out to bloom later on. A healthy grower, 4 feet or so tall, lasts for years.

Postpaid, 4 for \$1.00, each 35c

M 102 Pacific Hybrids—The individual flowers are very large, often 2½ inches across on spikes 3 to 4 feet long. The colors range from white, sky-blue to deep blue, purple, violet and exquisite shades of orchid-pink. The plants grow 5 to 7 feet tall. Cut the stems after the first great burst of bloom and they will repeat.

Beautiful in the garden and fine for cutting. Grows 18 inches tall. Will produce dozens of blooms for years. Few flowers are so attractive when cut.

Postpaid, 4 for \$1.00, Each 35c

M 277 Shasta Daisy, Alaska. An old favorite with its large single flowers, pure white with a golden center. Grows 2 feet tall with long stems fine for cutting. Blooms from June to August.

Postpaid, 4 for \$1.00, Each 35c

Delphiniums

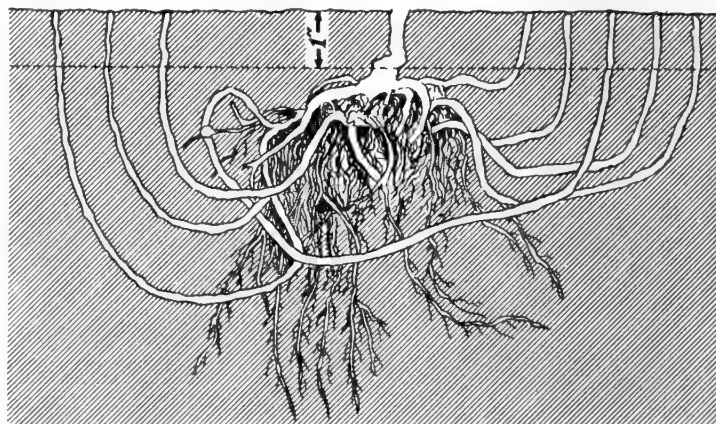

New Outstanding Chrysanthemums

We refer to these glorious fall flowers as "Mums" simply because the word is shorter and easier to say. Each year we test many new varieties. Here are those we found to be outstanding, definitely better than the older kinds. We give the blooming date but please remember that this varies according to the weather. In cloudy weather they come into bloom earlier. Bright sunny days tend to hold them back.

"Mums" like rich, well-drained soil in full sun or part shade. Plant 2 to 2½ feet apart. After new growth is a few inches tall, pinch out the tips so as to make the plant branch. In late fall after severe frosts you can cut off the tops and put on 3 or 4 inches of sand. This helps prevent the plant from "heaving out" during winter. Level off this sand in the spring. Divide the clump every 2 or 3 years.

We send out Mum plants either field grown or growing plants in pots. Plant the potted plants as soon as you get them, taking them out of the pots carefully. Water thoroughly. If you should get some late spring frosts, then protect these plants. If you get

field-grown plants, you will notice that there are a number of runners coming out of the main stem. When you plant be very careful that these runners are not buried too deeply. As the illustration shows, bring the tip of each runner up to the ground level. Remember that the new plant develops from these runners and not from the old stem. By taking a little extra care you will have grand specimen clump plants the very first season. You who like to "keep ahead of the parade" will delight in selecting from this list of new Mums. All Mums are POSTPAID.

M 244 Betty—The tallest growing Mum we have, strong, upright plants 3 feet tall with double flowers of rose-pink. Starts blooming in Early October. Becoming popular because of its stately appearance.

M 25 Carnival—Large, very double, perfect flowers of burnt-orange with reddish tinge and gold reverse. Starts blooming in Early October. Grows 30 inches tall.

M 26 Chris Columbus—The best new white we know. Grows 24 inches tall, starts blooming latter part of September and is a solid mass of flowers. Lovely in the garden and exceptionally fine for cutting. It is very frost-resistant, so the blooms are good even after frosts.

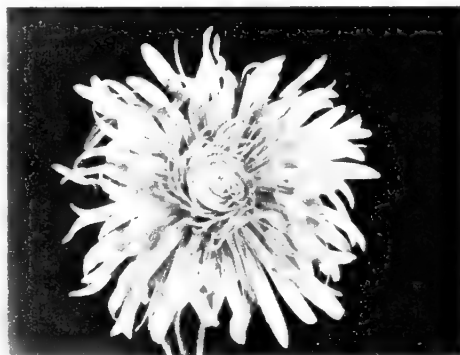

M 236 Cody—Originated by the North Platte Nebraska Experiment Station. It grows only a foot tall and nearly two feet wide, making ideal plant for the border. Starts blooming in early September and is a solid mass of color until frosts come. The flowers are 2 inches across and the color is a very lovely deep rosy-lavender.

M 248 Copper Kettle—This is the best of its color we have ever seen. The flowers are 2½ to 3½ inches across, a rich coppery-bronze shaded gold. Extremely free-bloomer, the flowers completely cover the bushy plant which is about 2 feet tall and just as wide. Starts blooming in mid-September.

M 5 Dr. Longley—We believe this is the finest variety created by Dr. Longley. Starts blooming in early September and comes into full bloom almost all at once so that the bush is so covered with flowers you cannot see the foliage. Lasts for weeks and weeks. The flowers are large, many being over 3½ inches across. They are very pleasing orchid-lavender that blends perfectly with other colors. We think Dr. Longley is our finest light lavender. Makes a fine plant 2 feet tall and 2½ feet wide.

M 233 Early Harvest—A new cushion type Mum that we like very much. The color is a blend of mahogany-orange-rose and red, very beautiful. Makes a perfect plant about 20 inches tall and 24 inches wide that is a solid mass of flowers from early September to frosts. The flowers

are 2½ inches across and absolutely cover the entire plant.

M 2 E. H. Hoppert—We rated this the most outstanding new Mum in our trials of newest varieties. Created by the North Platte Nebraska Experiment Station. It was the first to come into bloom and when severe frosts came many weeks later it was still producing new flowers. The picture cannot begin to show its attractiveness. Grows about 30 inches tall. The flowers are large, up to 4 inches across. Ideal fall colors, bronze, copper, gold and orange. Very striking in the garden and extra fine for cutting because of its long stems.

M 245 George McLeod—This is one of the best English Mums. The flowers are large, incurved like a greenhouse Mum, a real golden yellow. Starts blooming in early October and every flower gives a thrill.

M 247 Golden Hours—This is the finest clear pure bright yellow we know. Grows a little over 2 feet tall, and is covered with the beautiful fully double, high-crowned flowers. We expect this to become America's favorite yellow Mum. Starts blooming in mid-September.

M 4 Lavender Lassie—A very fine cushion-type Mum with the loveliest pure lavender pompon flowers. Grows 2 feet tall and just as wide. The flowers are very frost resistant so that even after repeated frosts they are handsome.

M 27 Meditation—Without doubt one of the most attractive of all Mums. Large,

very double, 2½ to 3 inch flowers on a strong, upright plant 30 inches tall. Striking in the garden and fine for cutting. The flowers are two-toned, jasper red with orange reverse. Very fine, indeed and a flower that always attracts attention.

M 235 Nye's Favorite—Mr. Charles Nye is one of America's greatest Chrysanthemum experts. Out of countless thousands of seedlings, he selected this as his favorite. Makes a bushy plant 2 feet tall and just as wide. Starts blooming in mid-September. The flowers are large, 3 to 4 inches across, bright sparkling pink with a carmine center and petals tipped with gold.

M 249 Rose Queen—A cushion-type with perfect 2-inch pompon flowers which absolutely cover the entire plant from mid-September on. The color is a rich rosy-red which deepens instead of getting lighter, lovely at all stages. Makes a perfect plant about 2 feet tall and just as wide.

M 6 W. P. Snyder—Mr. Viehmeyer, the Chrysanthemum genius at the North Platte Nebraska Experiment Station who created this, thinks it is his best. It is very fine. Makes a rather bushy plant 24 inches tall. Starts blooming in mid-September. The flowers are very double, 2½ to 3 inches across, and different from all others in color, a blend of tangerine, orange, rose, gold, carmine and apricot.

Columbine brings to your garden or a bouquet, a "fairy" touch that no other flower can give. The colors are so rich, so clear, so exquisitely lovely and they blend perfectly. The flowers are much larger than pictured, up to 3 inches across, with spurs 4 to 5 inches long. Come up year after year, grow 2 to 3 feet tall and bloom so generously in the spring. Thrive in ordinary soil and prefer partial shade, especially from afternoon sun. Our plants will bloom this season.

Inter-State's Best Hardy Carnations

M 69 Flame (Improved Crimson King). Grows 15 to 20 inches tall and blooms constantly from June to frost, as many as 30 flowers open at once. The beautiful crimson flowers are fragrant and fine for cutting. They will grow in sun or part shade. Will start blooming just a few weeks after planting. We have an unusually fine strain of this variety. POSTPAID.

3 for \$1.15, 6 for \$1.95, Each 50c

M 70 Rose Unique—Our best Hardy Pink Carnation. Lovely, fragrant, pink flowers are produced from June to frost on 15-inch stems, fine for cutting. Postpaid.

3 for \$1.15, 6 for \$1.95, Each 50c

M 68 Dubonnet—A new carnation with the loveliest wine-colored fragrant flowers all season. In cold states a light winter protection is beneficial to all carnations. Postpaid.

3 for \$1.15, 6 for \$1.95, Each 50c

Lovely Fall-Blooming

HARDY Asters

Easy to grow, they provide color in late summer and early fall. Come up year after year.

M 31 Beechwood Challenger—The best red. Grows 3 feet tall.

M 32 Blue Gown—The finest light blue. 3½ to 4 feet tall.

M 34 Harrington's Pink—The finest pink. 4 to 6 feet tall.

M 35 Mount Everest—The best white. 3½ to 4 feet tall.

M 37 Violetta—The finest deep blue-violet. 3 feet tall.

Plant Inter-State Lilies

Startling New
 Olympic Hybrid
 Lily

B 73 Orange Triumph (below)—A new Lily. Hardy and thrives from coast to coast. Flowers are upright, much larger than pictured. Color is a glowing orange tinted pink. Blooms in clusters on strong 2 to 3 ft. stems in July and August. Plant 7 inches deep in sun or part shade. Will bloom this summer. POSTPAID. **Each 50c, 3 for \$1.25, 6 for \$2.25**

B 79 New Olympic Hybrid—A Centifolium Hybrid originated by Mr. Jan de Graff. This magnificent new hardy Lily promises to change the entire Lily picture. It is probably the finest garden Lily today. Characterized by its great vigor, freedom of bloom, large size, much larger than pictured, beauty of flowers, fragrance and graceful form. As these are grown from seed there is a pleasing variation. Some are a cool icy green, others a delicate pink, some glistening white and some with different shades of yellow. They commence blooming right after the Regal and usually flower for three weeks to a month. They thrive in full sun or partial shade. Afternoon shade brings out best the delicate shades of pink and green. Plant in a well-drained spot 6 to 7 inches deep. They can be left undisturbed for several years. We send you large bulbs which will flower this summer. In cold states we advise a winter mulch to prevent alternate freezing and thawing. When established the strong stems grow 4 to 6 feet tall. For a new variety our prices are very low. We suggest ordering early so that you can be among the first to have the gorgeous Olympic Hybrids in your garden. We secured our bulbs directly from the originator. POSTPAID.

Each 50c, 3 for \$1.25, 6 for \$2.25

for Summer Bloom

B 68 Auratum Lily (to the right) is generally called the Gold-Banded Lily. Blooms from late July into September. The large fragrant flowers are waxy white with small crimson spots and each petal has a center stripe of gold. When established, the strong stems reach up 4 to 6 feet, with up to 25 flowers. Plant 7 inches deep in well-drained soil in full sun or part shade. They will bloom this summer and years to come. Without doubt this is one of the finest of all Lilies. The flowers are so large, so attractive. Remember that afternoon shade makes all Lily flowers last longer. POSTPAID.

Each 75c, 3 for \$2.00, 6 for \$3.25

B 84 Red Coral Lily, (*Tenuifolium*)—Thrives everywhere from coast to coast, Canada to the Gulf. The small, fragrant bright scarlet flowers highlight the garden in late spring and early summer. Grows only 18 inches tall. They are especially fine for Rock Gardens and out-of-the-way nooks, not too shady, where larger flowers would be out of place. The bulbs are rather small but they are sure to bloom this spring. Plant 5 inches deep. Comes up year after year. At our very special price you can plant them by the dozen. POSTPAID.

12 for \$2.00, 5 for \$1.00, 3 for 70c, Each 30c

 BB 72 3 Each
 of All 7 for \$5.50

B 80 Crimson Beauty (Pictured below)—The striking flowers of this fine Lily are much larger than pictured. The color is distinctive, a rich crimson with a touch of copper. Blooms freely in early summer, in upright clusters, on stems 18 to 20 inches tall. After it is established, it is nothing unusual to have twenty-five flowers on a single stem. Very easy to grow, thrive everywhere, comes up year after year and lasts a lifetime. POSTPAID.

6 for \$2.25, 3 for \$1.25, Each 50c

Auratum Lily

B 65 Rubrum Lily (below) is considered by many to be the loveliest of all. Blooms from late July into September. The flowers are bright pink edged white with small maroon spots. Strong stems 3 to 4 feet tall. Perfectly hardy. Plant in well-drained soil about 8 inches deep, in full sun or part shade. Will bloom this summer, increasing in beauty each passing year. The broadly reflexed, wavy flowers are very beautiful in the garden and also when used as cut flowers. They blend perfectly with other colors. Mixing $\frac{1}{3}$ or $\frac{1}{4}$ neutral Peat Moss (see page 33) with the soil when planting Lilies is beneficial. POSTPAID. Each 75c, 3 for \$2.00, 6 for \$3.25

Regal Lily

Lilies for Garden Beauty

All the Lilies we list are hardy. But we recommend that in cold sections you put on a winter mulch to prevent alternate freezing and thawing. Plant in well-drained soil. In heavy soil plant 1 inch less than stated, in light sandy soil plant 1 inch deeper. They can be planted in full sun but afternoon shade will make the flowers even more beautiful and they last longer. In dry weather water thoroughly about every ten days. Annuals like Petunias can be planted around them. Or a mulch of Neutral Peat Moss (see page 33) or lawn rakings helps to keep the roots cool in summer's heat. Remove seed pods as they take strength from the bulbs. When cutting flowers, leave $\frac{1}{2}$ to $\frac{1}{3}$ of the stem. ALL THE LILIES WE SEND YOU WILL BLOOM THIS SEASON.

B 86 Pure White Regal Lily (Album)—For years the hybridizers have been wanting a Regal Lily with white flowers. Now they have it. Here is a Lily that is exactly like the Regal except the lovely flowers are almost pure snow-white. Just as large, just as fragrant, just as hardy, vigorous and free-blooming. Blooms same time and same height. Come up year after year. A grand Lily. Our stock is limited so order early. Plant 7 to 8 inches deep in well-drained soil, in full sun or part shade. POSTPAID.

Each 50c, 3 for \$1.25, 6 for \$2.25

B 82 Creelman Hybrid Regal—This is a new hybrid variety. The flowers are like the Regal but they are much larger and even more beautiful. Just as hardy and easy to grow. Blooms even more freely and grows a foot or so taller. Great clusters of flowers in June-July that will astonish you. Fragrant, glistening white with golden throat and tinged ruby-pink on the outside. Plant 7 to 8 inches deep in well-drained soil, in full sun or part shade. POSTPAID.

Each 50c, 3 for \$1.25, 6 for \$2.25

B 85 Regal Lily—America's Favorite Lily for Late Spring and Early Summer Bloom. This is America's favorite hardy Lily. Plant 7 or 8 inches deep in well drained, ordinary soil, in a sunny or partially shaded location. Will come up year after year, multiplying and giving you more and more flowers each passing year. Blooms in June—July on stems 3 to 4 feet tall. After it is established it is nothing uncommon to have great clusters of 15, 20, even 25 flowers on a stem. The exquisite flowers, much larger than pictured, are fragrant, snow-white with a golden throat and tinged pink on the outside. These are very fine large bulbs and all will bloom beautifully this summer. POSTPAID.

B 83 Philippine Lily—A magnificent variety to wind up the Lily season. It starts blooming in late summer and continues right up to frost. Lovely in the garden and fine for cutting. Easy to grow and sure to bloom. The lovely white flowers are large, 7 to 8 inches long and delightfully fragrant. Come on strong stems 4 to 6 feet tall. Hardy, come up year after year. Plant 7 to 8 inches deep in a well-drained soil, in full sun or part shade.

Each 50c, 3 for \$1.25, 6 for \$2.25 postpaid

B 87 Lily Willmottiae Improved—This is probably the best bright orange garden Lily. Hardy, easy to grow, comes up year after year. Pyramidal shaped clusters of flowers, 30 or more, on graceful stems 4 to 5 feet tall in July and August. Plant 7 to 8 inches deep, in full sun or part shade.

Each 60c, 3 for \$1.50, 6 for \$2.50 postpaid

B 88 Lily Tigrinum Fortunei Giganteum—A terrible name but it simply means that this is the largest of the Single Tiger Lilies. Grows 4 to 6 feet tall with many giant size flowers, salmon-orange-red spotted purple-black. Blooms in August-September. Hardy and easy to grow. Plant 7 to 8 inches deep in full sun or part shade.

INTER-STATE'S Half-Price IRIS SALE

We have too many fine Iris so we are going to "clean house" by selling them at half price in collection lots. This gives you an opportunity to get the newer, better Iris. They are guaranteed to please you when you get them and also when they bloom. We ship these Iris in July-August which is an ideal time for planting them. **POSTPAID.**

DYKES MEDAL COLLECTION

Here are four of America's finest Iris, all of them Dykes Medal winners, the highest award an Iris can win. Now at our half price collection sale, you can have these in your own garden. Truly great Iris at special low price.

M 449 Elmoehr—The flowers are simply huge, often 6 inches across and 7 inches long. The color is a rich, glowing Bishop's purple. Without doubt one of the greatest of all Iris. In the 1949 official rating this ranks No. 8. **Each \$1.00, 3 for \$2.50**

M 432 Great Lakes—This variety has such perfect form, color and performance that it is the standard by which others are judged. The color is a captivating clear blue. One of the greatest Iris of all times. In the 1949 official rating this Ranks No. 2. **Each \$1.00, 3 for \$2.50**

M 484 Ola Kala—In the official Iris rating for 1949 this was America's No. 1 Iris. Superb flowers, medium large, heavily ruffled. The falls are almost horizontal and the color is the richest golden yellow. Freely produced on sturdy 3-foot stems. **Each \$2.00**

M 466 Wabash—Many think this the most beautiful of all Iris. The standards are snow-white, the falls are deep violet edged white. Simply exquisite, a "must-have." In the 1949 official rating this ranks No. 11. **Each 75c, 3 for \$2.00**

MM 474

DYKES COLLECTION

One Each of All Four Above Iris for only \$2.35 Postpaid

(Regular price is \$4.75)

WORLD FAMOUS SASS IRIS

It is recognized that the Sass's have done more to improve Iris than any other family. Their varieties are noted for their lovely colors and great performance. Here is a selection which at a moderate price will bring satisfaction to thousands.

M 485 Blue Shimmer—Out of the thousands of Iris varieties in America, in 1949 it rated 9th place in the official rating. Very large flowers of sparkling white with a wide border stippled and peppered deep blue. Well-branched stems over 3 feet tall. **Each \$2.00**

M 487 City of Lincoln—The standards are bright yellow, the broad flaring falls are fiery red with narrow golden edge. Rated as the largest, brightest and finest of its color. **Each 60c, 3 for \$1.50**

M 489 Flora Zenor—This is the sensational new Sass pink. The color is a fascinating sea-shell coral lighted with a brilliant tangerine beard. This color is new in Iris. Very freely produced on tall stems. **Each \$1.00, 3 for \$2.50**

M 430 Prairie Sunset—This masterpiece of Hans Sass cost \$100.00 each in 1939, the most sensational Iris ever created in America. A glorious blend of peach, apricot, rose, copper and gold. It certainly adds class to the garden. A Dykes medal winner. **Each \$1.00, 3 for \$2.50**

MM 409

SASS SPECIAL

One Each of the Above 4 Sass Iris for only \$2.30

(Regular price \$4.60)

FALL BLOOMING IRIS

These Iris bloom as usual in the spring and then bloom again in the fall. Not suited to extreme northern states as season is too short. In dry weather, water thoroughly.

M 477 Autumn Haze—Very large lavender-blue. **Each 35c**

M 478 Black Magic—Very fine royal purple. **Each 40c**

MM 405 One Each of All 5 Above Fall Blooming Iris for \$1.50 Postpaid

M 480 Kansas Ingleside—Fine red. **Each 50c**

M 454 Sangreal—Fine Yellow. **Each 50c**

M 481 White Autumn King—Pure White. **Each 35c**

DE LUXE IRIS

You will find these Blue Ribbon winners in the finest gardens. At this price you can discard some of your older kinds and bring your Iris garden up-to-date.

M 492 Azure Skies—Like the shimmering azure-blue sky. Perfect form, nicely ruffled, freely produced. Exquisite. **Each \$1.50**

M 425 China Maid—Gigantic flowers, pink with slight golden-copper suffusion. Free-bloomer. **Each 75c, 3 for \$2.00**

M 488 Elsa Sass—Hans Sass thought so highly of this that he named it for his wife. A cool lemon color with a white flush in the center of the falls and bright golden beard. **Each 60c, 3 for \$1.50**

M 424 Spun Gold—Gleaming golden yellow with velvety texture. Has perfect form, style, color and performance. Dykes medal winner. **Each \$1.00, 3 for \$2.50**

M 465 The Red Douglas—Large flowers of velvety deep red. Dykes medal winner. **Each \$1.00**

MM 497 DE LUXE SPECIAL

One Each of the Above 5 DeLuxe Iris for only \$2.40 Postpaid

(Regular price \$4.85)

MIXED IRIS

All different, not labeled, in a wide range of colors. If bought by name they would cost more than 3 times as much. A great value for you who want beautiful flowers and do not want to bother keeping track of the names. Most of these are Sass Iris.

Cannas

For Continuous Bloom
Early Summer to Frost

Big Bulbs, Postpaid

Varieties Alike or Assorted, Your Choice

3 for 50c, 8 for \$1.00

No other flower will give as brilliant a display all summer and fall as a bed or border of Cannas. We send you Big, Extra Fine bulbs. These larger bulbs will produce more and better flowers. Plant them in full sun in good soil when the ground warms up in late spring. Do not plant too early or they will rot in the ground. Water freely in dry weather. Plant 18 inches apart each way. All Cannas are Postpaid.

B 106 Allemania—Large flowers of sparkling salmon-red with yellow border. Green foliage, grows 5 feet tall.

B 92 Eureka—Large creamy white flowers all through the season. Green foliage, grows 3½ feet tall.

B 95 King Midas—We think this the finest clear bright yellow. Large flowers right up to frost. Green foliage, grows 4 feet tall.

B 100 Pink Giant—The finest pink canna we know. Large heads of broad petaled flowers, a bright glowing pink. Green foliage. 4½ feet tall.

B 97 President—For many years this has been America's favorite Canna. All through the season it produces large bright red flowers. Grows 4 feet tall.

B 94 Red King Humbert—Large, brilliant orange-scarlet flowers until frost. Purple-coppery-bronze foliage, 4½ feet.

B 98 Yellow King Humbert—Large flowers of golden yellow heavily flecked with red. Green foliage. 4½ feet tall.

B 101 Charles Henderson—Large rich crimson flowers, green foliage. 5½ feet.

NEW AND IMPROVED Flower Seed SELECTIONS FOR 1950

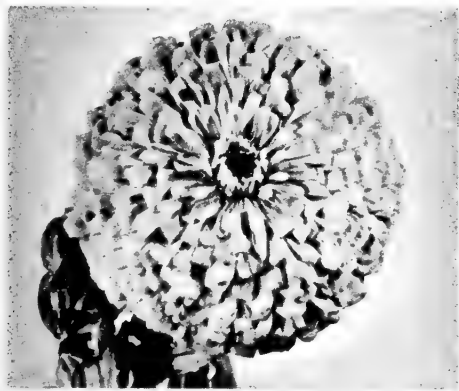

801 PETUNIA, Fire Chief

First Gold Medal Flower winner since 1939. The reddest Petunia you've ever seen. It grows about a foot high and flowers are borne in profusion. Very free blooming over a long season. It is the most popular bedding kind used in attractive arrangements in beds, borders, edgings, boxes and pots. The blooms are rich and velvety, holding their color without fading. Brighten your garden with this 1950 All-America winner this year. **Pkt. 15c each.**

802 SWEET PEAS, Cuthbertson Mixed

A new strain of Sweet Peas which is a vast improvement over the Spring Flowering types. It grows and blooms under hot weather conditions with exceptional vigor, length of stems and abundance of fragrant blossoms. If you have not had good success with Sweet Peas, be sure to give this variety a trial. **Pkt. 15c each.**

803 ZINNIA,

Burpee's New Luther Burbank

This new variety has lovely, delicate pastel or art shades in beautiful self colors and also an unusual two and three-color combination of soft and light shades. Flowers grow 5 to 5½ inches across and are composed of numerous petals which curl back somewhat to form thick flower heads 2 to 3 inches deep. Strong growing, 3 to 4 feet tall, well-branched with long-stemmed flowers for cutting. **Pkt. 15c each.**

804 ZINNIA, Burpee's Super Giants

A fine mixture containing the loveliest colors and combinations ever seen in Zinnias. Truly Giant flowers ranging from 5½ to 6½ inches across in a wide range of flower forms of Dahlia Flowered and Chrysanthemum-flowered heads. This will be outstanding in your garden and perfect for cutting. Try some and be convinced with their beauty. **Pkt. 15c each.**

805 SNAPDRAGONS, Burpee's New Tetra

Giant Ruffled Tetraploid Snapdragons are the largest flowered of all Snaps. Very distinctly and attractively ruffled in richer, brighter and clearer colors and combinations of beautiful tone blendings. We are pleased to offer this variety to our customers. Try them and you will be amazed with their beauty. **Pkt. 15c each.**

807 COSMOS, Radiance

A top All-America winner and an entirely new combination of two brand-new colors. The petals are a deep rose with a definitely rich crimson eye and a bright yellow center. A very outstanding color combination. It has a neat, compact erect growth habit and as a cutflower is unsurpassed. It has good long stems, strong enough to arrange easily. Blooms all summer long. **Pkt. 15c each.**

806 MARIGOLD, Red Head

Burpee's New Dwarf Single French Marigold which is an All-America Winner are proud to list for our flower lovers. Well-shaped flowers made up of a single row of broad, overlapping petals and a wide, crested center of many, tiny, erect florets. The edges of the petals are slightly curled, showing a beautiful gold reverse, adding to the attractiveness of the flowers which possess all the subtle shades of gold, bronze and auburn. When first opening, the blooms are a rich, mahogany-red, changing to auburn and later to bronze and gold. Plants are dwarf, quite compact and free-blooming, about 1 ft. tall. **Pkt. 15c each.**

808 ASTER, Ballet Queen

Another one of our new introductions which is very early and free-flowering and wilt-resistant. The color is new, deep rose touched with salmon, assuming a soft bronze color when flowers are massed together in the sunlight. The flowers are extremely double, perfect for cut flowers. You will find it outstanding for your garden and also as a border planting. **Pkt. 15c each.**

INTER-STATE'S GUARANTEED-TO-GROW FLOWER SEEDS!

PETUNIAS

Easy to Grow—Always in Bloom

Petunia (12)—Easily grown, blooms early and continuously until frost. Improved colors make beautiful beds and borders. The balcony types are best for window boxes.

192 Balcony Blue—A rich beautiful shade of dark blue, planted alone or in a combination it is hard to beat.

193 Balcony Rose—A soft rose, perfect for planting with the Blue for showy displays.

195 Balcony Mixed—A mixture of all the Balcony types for a blend of assorted colors.

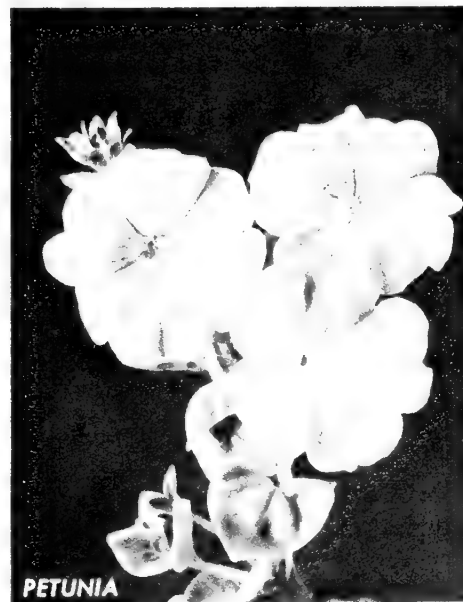

191 California Giants, Mixed—The immense blooms used for borders and beds. Ideal for cutting.

187 Exquisite Mixed—A mixture we believe will please any gardener, large flowers in a wide variety of color.

190 Flaming Velvet—A large deep velvety-red, an excellent bedder.

188 Purple—A large flowered beauty with deep purple blooms.

189 Rose of Heaven—An exquisite shade of Rose with inconspicuous white throat.

All 3 for just **25c** Postpaid

Have a patriotic flower garden as well
as beautiful flowers.

LARKSPUR

Tall Spikes of Graceful Beauty

158 Larkspur, Annual Mixed (30)—One of the finest annuals, ideal for both garden color and cutting. Gives a more continuous bloom if the faded blossoms are cut off.

Larkspur, Giant Imperial (30)—An ideal type for cutting with long flower stems, branching from the base. Your choice of the following.

- 160A **Blue Spire**—Deep blue.
- 160B **Carmine King**—Carmine.
- 160D **White King**—Pure white.
- 160E **All Colors Mixed**.

304 Larkspur, Rosalind (40)—A new color in Larkspur, rose with just enough salmon to create a most pleasing shade of rose-pink. Base branching, practically non-shattering, excellent for cutting.

LARKSPUR, Annual Mixed

NASTURTIUMS

Thrive in the poorest of soil

172 Nasturtium, Dwarf Mixed (10)—The most popular dwarf annual, easy to grow in poor soil, and blooms for weeks. In rich colors, fine for beds and borders.

173 Nasturtium, Dwarf Semi-Double Gem Mixed—A wide range of pastel and sharp colors.

175 Nasturtium, Double Glorious Gleam Hybrids—Large, double, sweet-scented blooms in striking colors.

174 Nasturtium, Double Golden Gleam—Fragrant, golden yellow flowers. An original Gold Medal Winner and still one of the most widely planted of all new flowers.

SCABIOSA

Easy to grow, ideal for cutting

316 Scabiosa, Giant Rosette (36)—A glorious new Scabiosa color, a deep, lovely rose, with extra large flowers on long stems which are fine for cutting.

315 Scabiosa, Blue Moon (36)—An entirely new type of Scabiosa with broad, wavy petals of a rich deep lavender blue. Long, wiry stems ideal for cutting.

Scabiosa, Mourning Bride (30)—Long stems and cheerful colors make these ideal for cutting. Long lasting in water and bloom July until frost. Very easily grown.

- 214 **Finest Mixed**, lovely colors.
- 215 **Black Prince**, purple.
- 218 **Peach Blossom**, peach pink.
- 219 **Loveliness**, salmon rose.
- 221 **Shasta Improved**, white.
- 222 **Yellow**, sulphur yellow.

ANNUAL VINES

Decorative

289 Gourds, Ornamental Mixed—This special mixture of the large and small ornamental varieties is very interesting.

287 Cardinal Climber, Ipomea Hyb.—A mass of fiery red flowers from mid-summer until frost. Everybody admires this strong and rapid growing annual vine.

291 Morning Glory, Giant Japanese Mixed—Large flowers and gay colors that you will enjoy. Like poor soil and full sun.

810 MORNING GLORY VINE SPECIAL

- 1 **Imp. Heavenly Blue**
- 1 **Pearly Gates**
- 1 **Scarlett O'Hara**

All 3 for just **25c**
POSTPAID

MORNING GLORY, Heavenly Blue

292 Morning Glory, Imp. Heavenly Blue—Clarke's Strain. The large, lovely, true-blue flowers with a lighter throat give a mass of beauty. Fine for trellis or arches. A coarse gravelly soil and a southern exposure gives an abundance of morning bloom until frost.

293 Morning Glory, Pearly Gates—Silver Medal Winner in 1942 All-America Selections. The flowers are a lovely lustrous white with creamy shading deep in the throat. They average 4½ inches across. Vines are covered with bloom from mid-summer to frost. A wonderful companion for Heavenly Blue.

306 Morning Glory, Scarlett O'Hara—The All-America GOLD MEDAL Winner that has created so much interest. The rich, wine-red flowers of good size are freely produced and last longer.

307 Morning Glory, Cornell—A new, annual climber with flowers of intense red with pure white border, as large in size as Heavenly Blue. Makes a rapid growth.

New Mums

These Chrysanthemums were selected from thousands of seedlings. They are new, they are better, they will bring your "Mum" garden up-to-date. They start blooming in September and the flowers are much larger than pictured. We recommend putting 3 to 4 inches of sand on your mums over winter to prevent ground from heaving.

Your Choice, Alike or Assorted, all Mums on this page postpaid

6 for \$2.25; 3 for \$1.25; Each 50c

M 22 Avalanche—Many think this the finest large double white. 27 inches.

M 227 Charles Nye—Large, very double 3-inch flowers of bright buttercup yellow. The finest new yellow Mum we have seen. Nearly 30 inches tall.

M 24 Chippewa—3½ to 4-inch large double flowers of Aster-purple. Colors best with afternoon shade. 26 inches.

M 228 Courageous—Large double 3½-inch flowers of glowing ruby red. 26 inches.

Golden Sunset

Heatherbloom

M 229 Drifted Snow—Large double 3½-inch flowers, snow-white with creamy center, cover the entire plant. 24 inches.

M 234 Golden Sunset—A marvelous new variety with large, double 3½ to 4 inch flowers of burnished copper with a ruby center, unusually attractive. No other Mum like it. Completely covered with flowers for many weeks from early September to severe frosts. 24 inches.

M 230 Heatherbloom—Very double 2½-inch blooms of sparkling pink, center shaded rose and petals tipped with gold. 24 inches tall.

M 231 Olive Longland—Large double 3-inch flowers of apricot tinted salmon. The finest of this color. 24 inches tall.

The illustrations below of "The Four Queens" and one of our four large fields of growing Mums are made from direct color photographs (Kodachromes). The individual plants were photographed in this field.

The Four Queens

America's Finest Cushion Mums

Visitors last fall were amazed at the spectacular beauty of our fields of Mums. These Four New Varieties of Cushion Type Chrysanthemums were particularly outstanding. In the first place, they make perfect plants, about two feet tall and two to three feet wide. So full of flowers that you cannot see the foliage. They start blooming in early September and continue right up to severe frosts.

They literally produce Bushels of Blooms. Marvelous coloring for the garden and you pick bouquet after bouquet and scarcely miss a flower. The flowers are two to two and one-half inches across and completely cover the entire plant. Please read carefully the information about Mums on page 64.

We are so sure that these Four New Queen Mums will please you that we make this Guarantee—When they bloom this late summer and fall, if you are not delighted, you may select from our catalog whatever you wish equal to the amount you paid for them. We have 25,000 of each variety but remember that this catalog goes into nearly a million homes. So we advise ordering early.

M 3 Bronze Queen—A new variety being introduced by us this spring. The flowers have perfect fall coloring, golden bronze with touches of copper and tangerine. A tremendous bloomer and the last flowers seem even more attractive than the first.

M 7 Crimson Queen—By far the finest Red Cushion Mum we have ever seen. The color is such a rich shining crimson. A perfect mound of bloom, about six inches lower than the other three varieties. Introduced by us last spring.

M 9 Purple Queen—When you see this for the first time, it really gives you a thrill. Most people never knew there was such a Mum. And there never was until this was introduced by us last spring. No flower in your garden will create a greater sensation. The rich purple flowers are lovely from the first opening bud until severe freezes end the season weeks later.

M 10 Yellow Queen—Not a golden yellow but the richest bright clear yellow, a color that lights up the entire yard. In the garden, in a bouquet, it is outstanding and a color that brings cheer and life. It is unequalled. Introduced last spring.

MM 15	} Three Each of All Four Varieties Postpaid	All 12 for \$5.00

103 African Daisy, Hybrids Mixed (15)—Compact, bushy plants with white, orange, gold and salmon blossoms from July to October. Very fine for cutting.

107 Alyssum Procumbens, Carpet of Snow (4)—The dwarf, white, edging plant that is so desirable. Blooms all summer and fall. Each plant is a compact mass of snow-white blossoms.

122 Alyssum, Violet Queen (6)—A new dwarf compact variety bearing beautiful bright violet flowers all summer and fall. It is a pleasing contrast to the white flowering alyssums.

118 Bachelor Button, Double Mixed (20)—An abundance of double, colorful flowers from July until frost. Fine for cutting.

119 Bachelor Button, Jubilee Gem (12)—A dwarf, compact plant of bright green. A delightful background for the double, dark blue flowers.

123 Calendula, Sunshine (18)—The large buttercup-yellow flowers bloom over a long period and are excellent for cutting.

124 Calendula, Campfire (24)—The large, dark orange flowers with a scarlet sheen are very attractive.

125 Calendula, Finest Double Mixed (18)—The old fashioned, free-flowering Pot Marigold of yellow and orange.

127 Campanula, Cup and Saucer, Canterbury Bell (20)—An easily grown biennial that gives a profusion of blue, rose, and white flowers.

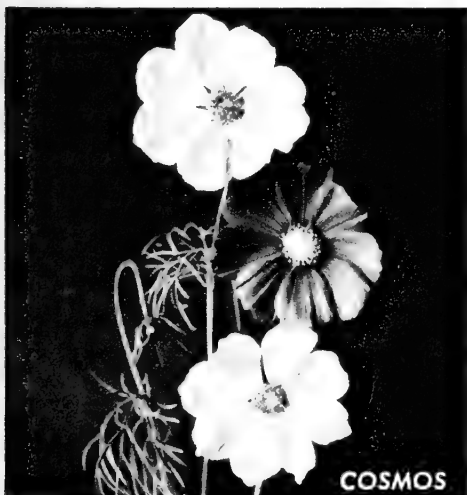

129 Canterbury Bell, Annual Mixed (24)—Blue, pink, rose, violet, and white flowers in late summer and autumn. A fine border flower.

130 Carnation, Chabaud's Giant Imp. (16)—Our most popular early flowering clove-scented carnation. The robust, long-stemmed plants give continuous bloom.

131 Castor Bean, Ricinus (120)—Tall-growing background plant with ornamental foliage. Useful for screening alleys and unsightly places.

136 Cockscomb, Celosia Cristata (30)—The velvety-red heads of this old fashioned celosia add color to the garden.

139 Cosmos, Sensation Mixed (45)—Immense pink and white blooms are truly a sensation, and are a great favorite for cutting.

141 Cosmos, Mam. Early Flowering Mixed (48)—The large, single flowers of red, pink, and white make a lovely showing from midsummer until frost.

303 Dahlia, New Dwarf Hybrids (20)—This new strain of Dahlias is selected to give a higher percentage of true doubles and a much wider range of colors.

145 Dianthus, Pinks, Heddewigi Dbl. Mixed (12)—The freely-produced flowers of crimson, purple, pink, and white are fine for cutting.

148 Four O'Clocks, Marvel of Peru (24)—Flowers of red, yellow, lilac and white. The glossy foliage and profuse bloom make it an attractive border plant from July until frost.

154 Gypsophila, Annual Baby's Breath (15)—This improved London Market strain gives an abundance of large, pure white flowers. Make several plantings for continuous bloom.

182 Painted Daisies, Finest Mixed (18)—The annual Chrysanthemum is easily grown and loved by all. Early blooms, choice colors.

183 Pansy, Giant Superb Mixed (6)—A large flowering strain in a beautiful color range.

308 Pansy, Super Swiss Giants (6)—For size, color, and free blooming qualities this garden favorite is unsurpassed.

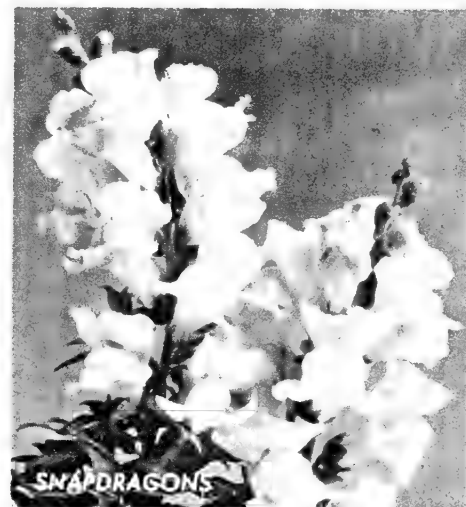

196 Poppies, American Legion (30)—Brilliant scarlet that brightens your flower garden. The best red Poppy.

205 Poppies, Eschscholtzia, Calif. Mixed (12)—A free blooming annual rich in crimson, pink, and orange-scarlet shades. Very showy.

209 Portulaca, Rose Moss, Dbl. Mixed (4)—Our unsurpassed, choice doubles. Delicate green foliage simply covered all season with bright colored flowers. The flowers resemble small roses and in dry weather are at their best.

225 Snapdragon, New Calif. Rust-proof (24)—The finest color range of all the Rust Resistant Mixtures. Beautiful in beds and fine for cutting.

226 Snapdragon, Super Giants, Rust-proof (30)—A mixture of our own selection, taller in habit than the California type and bearing larger blossoms.

PEAT MOSS

Peat Moss mixed with your soil is very good for your flower beds, you will get better results from your planting. See Page 33 for description and prices. Order early.

228 Strawflowers, Everlastings, Mixed (20)—Our own collection of many kinds especially selected for your winter and decorative bouquets.

243 Sweet William, Single Mixed (18)—Pink, crimson, scarlet and white blooms in early spring.

248 Verbena, Giant Hybrids (10)—Fine for borders, beds, porch boxes and among tall growing plants like Lilies. Bloom all summer and fall. All colors mixed.

INTER-STATE'S TESTED, GUARANTEED-TO-GROW VEGETABLE SEEDS!

OUR SEED GUARANTEE

We guarantee our seeds to be of the best quality and to grow in your garden. Otherwise, we will replace them free.

When you see this mark (*) before the name of a variety, it means that we recommend it especially for quality and productiveness in the home garden. The number following the name indicates the approximate days from planting until ready for use. Complete easy-to-follow Planting Instructions are printed on every seed packet.

FREE! Make your SEED ORDER total \$2.00 or more and we will include FREE some packets of seeds worth 30c or more.

IMPORTANT NOTICE...

If you order both Seeds and Nursery Stock, please write your Seed Order on a separate Order Blank or sheet of paper. Seeds and Nursery Stock are not shipped together. By sending us your orders for Seeds and Nursery Stock on separate sheets of paper, you help us to give you faster service, with less chance of confusion. Be sure to write your full name and complete address, plainly, on both sheets.

1 Lb. for 55c

One packet of Bush Beans will plant 25 feet and 1 pound 150 feet. Make successive plantings of bush beans and have fresh beans all summer and fall.

DWARF GREEN POD BUSH BEANS

***401 Burpee's Stringless Green Pod** (50 days)—This is, by far, our most popular bush bean. It produces long, round meaty pods that are always tender and absolutely stringless even when full grown. It cannot be beat for table use or canning. Its quality, productiveness and tenderness have never been surpassed. We believe that it will produce more than any other variety and produce for a longer period of time.

400 Improved Logan (52 days)—Another one of the more popular stringless varieties. Pods set in clusters with 6 inch long, light green, meaty and smooth beans. It stands heat well and is excellent for canning and freezing. A very hardy, productive tender-green type. Plants are 16 to 20 inches tall and upright.

***403 Tendergreen** (53 days)—A new green bean so tender that it fairly melts in your mouth. Absolutely stringless, very highest quality and productive. Fine for table use and canning and best of all for freezing. All who plant it are enthusiastic.

DWARF WAX POD BEANS

***406 Brittle Wax** (54 days)—This is our best and most popular wax bean. Superb quality, very early and very productive. The long, round pods are perfectly stringless at all times, very tender, light yellow. Many think this the finest quality of all beans, wax or green. Easy to grow as it is blight resistant and stands dry weather.

408 Topcrop (48 days)—Another top medal award winner. High merit for both canning and freezing. Pods 6½ inches long, round and slightly curved. Very productive.

407 Puregold Wax (58 days)—All-America Bronze Medal Winner. Pods are 5½ to 6 inches long, slim round golden yellow. The bush is dark green and about 13 inches high. A good canning variety which is stringless. Resistant to the common bean Mosaic.

905 BEAN SPECIAL

3 lbs. for \$1.50

**Your choice
alike or assorted**

BUSH LIMA BEANS

411 Burpee's Improved Bush Lima (75 days)—A large, meaty, delicious Lima. Long, broad, tender flat pods. Very productive, it produces right up to frost. When dry the beans are large, plump, white with a light greenish tinge.

416 Cangreen (68 days)—A new Lima similar to Henderson's except the beans are a little larger and when dry they remain an attractive green color. Extremely productive, all season. If you plan to can some Limas, be sure and plant some Cangreen because the beans look fine in the jar and taste as good as they look.

412 Henderson's Baby Lima (65 days)—A tremendous yielder, a short row will give you these delicious butter beans right up to frost. The green pods are about 3 inches long. The beans are small and creamy-white when dry.

FIELD BEANS

409 Improved Navy (85 days)—The small white, soup bean. Plant some for your winter's supply for soup and baking.

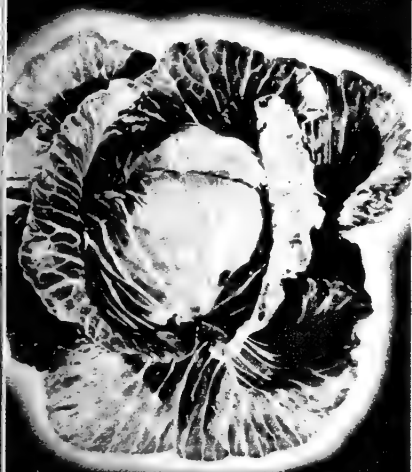

410 Red Kidney (94 days)—The dark red bean used in chili, soups, etc.

POLE BEANS

413 Kentucky Wonder (65 days)—Most widely planted Pole Bean. Bears early with clusters of long, curved green pods with tasty distinctive flavor. The more you pick them, the more they bear, until frost. Light brown beans.

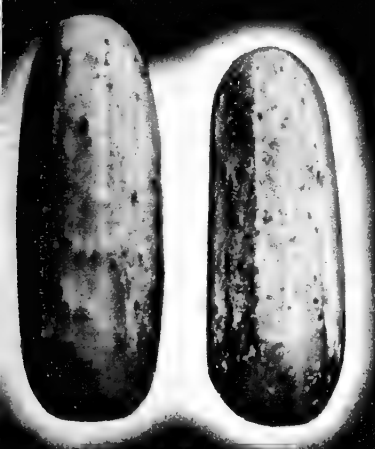

BEETS, Detroit Dark Red

CABBAGE, Marian Market

CARROTS, Imp. Chantenay

National Pickling

BEETS Contain vitamins A, B₁, C, G, also minerals.
The Beet greens contain Iron, calcium, phosphorus, A, C, and G.

One Pkt. will sow 20 to 25 feet; one Oz. 75 to 100 feet.

***420 Detroit Dark Red Improved** (61 days)—The most popular beet for the home garden and canning. Globe shaped, very smooth, a deep oxblood-red color. Very tender and sweet at all stages of growth, without a trace of woodiness.

422 Early Blood Turnip (60 days)—A good dependable midseason variety. Nearly round, deep red with brighter red zones. High quality.

***421 Crosby's Egyptian** (55 days)—Extra early, semi-flat, very tender and sweet. Flesh is distinct dark red and keeps its color in cooking. Free from woodiness. Fine for the first beets from your garden.

POSTPAID PRICES ON ALL BEETS

Pkt. 10c	1/2 Oz. 18c
1 Oz. 30c	1/4 Lb. 85c

CABBAGE Contains vitamins A, B₁, C, G, P.P., Calcium, Iron.

1 Pkt. will produce 100 or more plants; 1 Oz. 2500 plants.

434 Early Flat Dutch (75 days)—An early, unusually fine, large, solid, flat-headed type. Fine quality, 5 to 6 pound heads. Keeps well. Pkt. 10c; 1/2 Oz. 25c; 1 Oz. 43c

435 Danish Ballhead (100 days)—Our most popular late cabbage, producing round compact heads weighing from 7 to 9 pounds. Excellent keeper. Very crisp and tender. Fine for kraut. Pkt. 10c; 1/2 Oz. 28c; 1 Oz. 50c

436 Early Jersey Wakefield (60 days)—An extra early variety with cone-shaped heads, 2 to 3 pounds each. Pkt. 10c; 1/2 Oz. 25c; 1 Oz. 40c

***438 Marion Market** (75 days)—A Yellow-Resistant strain of Copenhagen Market. A sure heading, main crop variety. Our most popular cabbage. Excellent quality, has short stems and is good for early kraut and all cooking purposes. Weighs 4 to 5 pounds.

Pkt. 10c; 1/2 Oz. 35c; 1 Oz. 60c

439 Premium Late Flat Dutch (100 days)—Very popular large, flat headed winter cabbage. Fine quality, solid, good keeper and fine for kraut. Heads weigh from 13 to 15 pounds.

Pkt. 10c; 1/2 Oz. 28c; 1 Oz. 50c

437 Golden Acre (65 days)—An extra early garden variety with round firm heads weighing about 4 pounds each. Resists bursting.

Pkt. 10c; 1/2 Oz. 28c; 1 Oz. 50c

CARROTS Contain vitamins A, B₁, C, G, P.P., Calcium, Phosphorus, Iron.

One Pkt. will sow 35 feet; One Oz. 200 feet.

***426 Improved Chantenay** (70 days)—The outstanding favorite with people who grow carrots in their garden. This is a very choice strain producing large, thick, six-inch orange roots, very tender, high quality and free from hard core. Very heavy yielder.

Pkt. 10c; 1/2 Oz. 25c; 1 Oz. 45c

430 Oxheart (72 days)—Especially good for rather stiff, hard soil because the roots are short and stubby. A good keeper. Bright orange, tender and sweet.

Pkt. 10c; 1/2 Oz. 25c; 1 Oz. 45c

***427 Coreless Nantes** (68 days)—We especially recommend this for the home garden because of its extra fine quality. The roots are deep orange, very tender and sweet from 6 to 7 inches long and the same size from top to bottom.

Pkt. 10c; 1/2 Oz. 30c; 1 Oz. 50c

429 Danvers Half Long (75 days)—Very productive. Keeps all winter. Does well in all classes of soil. Smooth, deep orange roots, about 7 inches long, tapering to a blunt point. Sweet, tender and crisp.

Pkt. 10c; 1/2 Oz. 25c; 1 Oz. 45c

CUCUMBERS Contain vitamins A, B₁, C, G, Phosphorus, Iron.

One Packet will plant 15 hills; one Ounce, 65 to 70 hills.

452 Chicago Pickle (58 days)—Very popular early variety. Very productive. Pickles are uniform size, medium green and square ended. Pkt. 10c; 1/2 Oz. 16c; 1 Oz. 27c.

455 Burpee's Hybrid (60 days)—Burpee's Hybrid Cucumber outyields open pollinated varieties because the vines continue to produce their fruits more profusely long after the others have ceased. Vines are extremely vigorous, long lived and bear an abundance of well-formed green fruits of handsome appearance, 8 inches and more long, 2 1/2 inches wide, square at both ends with medium seed cavity and crisp, white flesh of excellent quality.

Pkt. (30 seeds) 30c; 3 Pkts. 75c;
5 Pkts. \$1.20; 1/2 Oz. \$2.75

***453 Improved Long Green** (62 days)—The best and most popular all-purpose cucumber, fine for slicing and pickling. It does well in every section, producing heavily when other kinds give up. It is medium dark green, crisp, few seeds. Pkt. 10c; 1/2 Oz. 18c; 1 Oz. 30c.

***454 Select National Pickling** (55 days)—Our most popular pickling type. Of uniform size and color, as firm after pickling as before. Very early and enormously productive. Even size, straight, with square blunt ends, deep green color. Pkt. 10c; 1/2 Oz. 16c; 1 Oz. 27c.

456 Straight Eight (58 days)—A new spine type, very productive, long straight fruit of an ideal green color. Averages about 8 inches long. Pkt. 10c; 1/2 Oz. 20c; 1 Oz. 40c.

SWEET CORN

Contains vitamins B₁, C, Phosphorus, Iron.
(Also Vitamins A and G in yellow sweet corn)

One packet will sow 60 feet or more; 1 Lb. 400 feet.

***450 Tendermost** (83 days)—The most tender of all our yellow hybrids, giant size kernels of sugary-sweet goodness with a tender hull. Very large ears averaging nine inches in length with 14 to 16 rows of regular kernels. A high-yielder that stays sweet and tender on the stalk for nearly two weeks. Good resistance to smut and ear worm.

Pkt. 10c; ½ Lb. 38c; 1 Lb. 70c

***443 Aristogold Bantam Evergreen** (87 days)—This is the largest, high quality yellow hybrid sweet corn we have ever seen. About a week later than Golden Cross, the ears are a little larger, equally fine quality and even more productive. The two together make a great team. Stands the heat, drought and wind.

Pkt. 10c; ½ Lb. 38c; 1 Lb. 70c

444 Marcross, Early Yellow (71 days)—Plant this for the first sweet corn of the summer. Ears are 6 to 7 inch, with 10 to 14 rows of fairly large, yellow kernels of good quality. Prolific producer.

Pkt. 10c; ½ Lb. 38c; 1 Lb. 70c

447 Golden Bantam (78 days)—The favorite yellow sweet corn for many years. Very early, small ears, tender and sweet.

Pkt. 10c; ½ Lb. 20c; 1 Lb. 35c

***445 Golden Cross Bantam** (82 days)—Our most popular yellow hybrid, producing 12 rowed ears, 8 inches long. It is about 3 times as productive as Golden Bantam. It is also resistant to bacterial wilt which often causes failure with early yellow corn. We honestly believe that once you grow this corn, you will always want it. The kernels are so tender and sweet they fairly melt in your mouth.

Pkt. 10c; ½ Lb. 30c; 1 Lb. 55c

445A Hybrid Blends—A special blend of all the finer yellow hybrids to give you an all season supply with only one planting. It contains early, medium, and late varieties. Thus all your sweet corn does not come on at once, and you can enjoy sweet corn all season long from just one planting.

Pkt. 10c; ½ Lb. 34c; 1 Lb. 60c.

449 Stowell's Evergreen (94 days)—The standard main crop white sweet corn. Large ears, sweet and stays tender a long time. Especially fine for canning.

Pkt. 10c; ½ Lb. 22c; 1 Lb. 36c.

***446 Tendergold** (75 days)—A very fine yellow hybrid corn that is sweet, tender and of finest quality. Matures a few days earlier than Golden Bantam. Much more productive and holds its quality two to three days longer than other corns. The golden ears are 12 rowed about 8 inches long.

Pkt. 10c; ½ Lb. 33c; 1 Lb. 60c.

448 Country Gentleman (90 days)—The late white corn with long, deep grained kernels irregularly arranged. Often called the shoe-peg type. A heavy yielder.

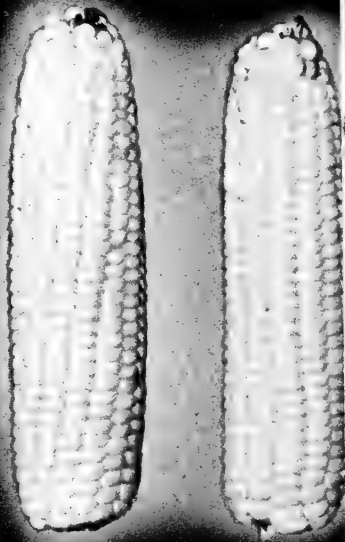

Pkt. 10c; ½ Lb. 22c; 1 Lb. 39c.

451 Silver Cross Bantam (80 days)—This corn was derived from Golden Cross Bantam which it resembles but the stalks are taller and the ears longer and larger. Very tender with a real corn flavor. First choice for canning and freezing.

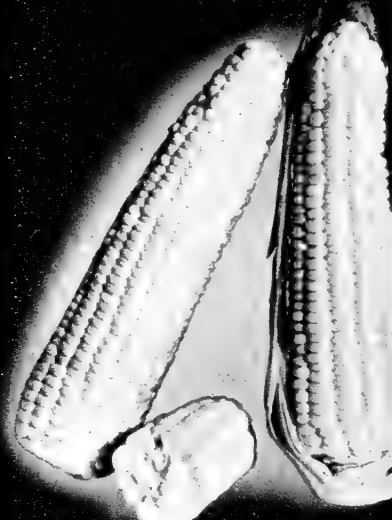

Pkt. 10c; ½ Lb. 38c; 1 Lb. 70c

452 Golden Security (85 days)—A very outstanding new variety under drought conditions. Kernels are bright golden yellow, medium width, good depth, tender and of excellent quality. Ears are 8-8½ inches, usually two ears per stalk. Choice for canning.

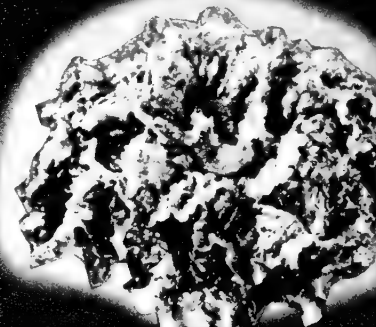

Pkt. 10c; ½ Lb. 38c; 1 Lb. 70c

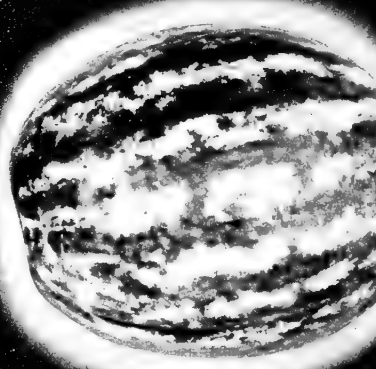

Golden Cross

Golden Security

LETTUCE, Black Seeded Simpson

Early Kansas

LETTUCE

Contains vitamins A, B₁, C, G, Calcium, Phosphorus, Iron.

One Packet of seed will sow 40 to 50 feet, one Ounce, 200 feet.

***462 Black Seeded Simpson** (46 days)—Our most popular loose leaf lettuce. The broad, frilled light green leaves are crisp, tender and of excellent quality. It is very early, does well everywhere.

Pkt. 10c; 1 Oz. 23c.

463 Great Lakes Lettuce (75 days)—A sure-heading variety that is famous for crisp heads even in hot weather. All-America winner of excellent quality. Try this variety this year, you will like it.

Pkt. 10c; ½ Oz. 25c

***464 Early Prizehead** (45 days)—An early, non-heading home garden variety. The crimped, crisp, tender leaves are tinged brownish red.

Pkt. 10c; 1 Oz. 23c.

466 Iceberg (82 days)—Large, solid heads, white inside, crisp and of excellent quality. A popular head lettuce.

Pkt. 10c; ½ Oz. 20c.

467 Imperial No. 44 (70 days)—If you have been unable to grow head lettuce, try this variety. It is early and will stand lots of heat. The heads are compact and medium large.

Pkt. 10c; ½ Oz. 20c.

WATERMELON

Contains vitamins A, B₁, C, G, and minerals.

One Packet will sow 10 hills; 1 ounce 30 hills.

***477 Imp. Kleckley Sweet No. 6** (87 days)—Many consider this the best watermelon. Weighs about 35 pounds, white seeds. Has bright red flesh which is crisp, tender and very sweet. Wilt resistant strain.

***480 Early Kansas Sweet** (85 days)—A very large medium early melon, fine for home gardens. Thin green-striped rind, bright red flesh of very fine sweet flavor. Seeds are reddish-brown. Weighs about 40 pounds. This is one of our finest melons and we recommend it.

475 Northern Sweet (76 days)—A very early, round melon weighing 12 pounds, having a thin rind and deep red crisp flesh. An ideal ice-box melon.

478 Stone Mountain (86 days)—The large, round, solid dark green melons are very popular. Ripens medium early and has a very delicious flavor with lots of heart. Weighs 30 to 40 pounds.

Prices on all Watermelon
Pkt. 10c; 1 Oz. 15c; ¼ Lb. 45c.

MUSKMELON (Cantaloupe)

Contains vitamins A, B₁, C, G, and minerals.

One Packet will sow 15 hills; 1 Ounce 60 hills.

470 Hales Best (87 days)—Thick, tender flesh is deep salmon and richly flavored. Oval fruits weigh 4 pounds.

472 Early Sunrise (78 days)—Especially desirable because of early maturity. Fruit 5 to 6 pounds, fairly well netted. Flesh is orange with excellent flavor and quality. Very productive.

Prices on all Muskmelon Pkt. 10c; 1 Oz. 25c; 1/4 Lb. 75c.

ONIONS

Contain B₁, C, G, Calcium, Phosphorus, Iron.

483 Southport White Globe (115 days)—The best and most popular white onion. The bulbs are medium large, crisp, mild and have snowy white flesh. A good keeper and a heavy yielder.

Pkt. 10c; 1/2 Oz. 45c; 1 Oz. 80c

485 Yellow Globe Danvers (111 days)—White flesh, crisp and very fine quality. Firm and solid, this is the best keeping yellow onion. Very productive.

Pkt. 10c; 1/2 Oz. 45c; 1 Oz. 80c.

PEPPERS

Contain A, C, B₁, and G; also Calcium and Iron.

500 Long Red Cayenne (70 days)—A favorite hot sort used chiefly for pickling, canning and drying.

Pkt. 10c; 1/2 Oz. 30c.

497 Ruby King (68 days)—A popular variety for home gardens. Bears dark green fruits, about 4 1/2 to 6 inches long, which turn a ruby red color when ripe. Fruits are about 3 inches thick. One of the best types for pickles.

Pkt. 10c; 1/2 Oz. 20c.

PARSLEY

Contains Vitamin A and Iron.

487 Moss Curled (72 days)—The most desirable for garnishing and decorative purposes. Dark green, finely cut curled leaves. Very fast growing. Cut it and it comes up again.

Pkt. 10c; 1 Oz. 23c.

PARSNIPS

One Packet will sow about 40 feet; 1 Oz. 200 feet.

488 Hollow Crown (125 days)—The most popular variety. Smooth, white skin with rich, tender, sweet flesh. Long, tapering roots about 12 inches long. They can be left in the ground over winter. Dig them in early spring before growth starts.

Pkt. 10c; 1 Oz. 20c.

PEANUTS

489 Peanuts, Jumbo—The large standard roasting peanut. Stands heat and drought.

Large Pkt. 10c; 1/2 Lb. 25c; 1 Lb. 45c.

489A Peanuts, Early Spanish—The pods are smaller than the Jumbo but they will mature as far north as Minnesota.

Large Pkt. 10c; 1/2 Lb. 25c; 1 Lb. 45c.

***471 Hearts of Gold** (88 days)—The salmon-orange flesh is very thick and good right out of the rind. The fruits are tender, juicy and very sweet. This melon weighs about 4 pounds. It is the most popular muskmelon for general use.

474 Rocky Ford Netted Gem (95 days)—A fine home and market garden melon, weighing about 2 1/2 pounds. Uniform size, nearly round, thick green flesh with a spicy flavor.

One Packet will sow 12 to 15 feet; 1 Ounce 200 feet.

482 Giant Yellow Sweet Spanish (112 days)—The most popular yellow onion. Very large with mild crisp white flesh.

Pkt. 10c; 1/2 Oz. 45c; 1 Oz. 80c.

481 Large Red Weathersfield (110 days)—The favorite red onion. Flat, solid medium large bulbs that keep well.

Pkt. 10c; 1/2 Oz. 40c; 1 Oz. 75c.

499 Sunnybrook Pimiento (72 days)—Fine for home gardens, excellent flavor. Fruits are 2 1/2 to 3 inches long and 3 inches in diameter. They are tomato-shaped, smooth with thick, mild flesh.

Pkt. 10c; 1/2 Oz. 30c.

496 California Wonder (70 days)—A good stuffing pepper—large size, almost square shape, very thick walls, sweet, tender and good flavor. Smooth glossy green, becoming red when ripe.

Pkt. 10c; 1/2 Oz. 25c.

450 White Hull-less—Most popular white pop corn. Small, short ears. Pops snow-white, absolutely without hulls, very fine quality.

Pkt. 10c; 1/2 Lb. 25c; 1 Lb. 45c.

451 South American Jumbo—This is the yellow pop corn that pops to such enormous size, creamy yellow color. Good yielder, usually 2 to 3 ears on a stalk, the ears 6 to 7 inches long.

Pkt. 10c; 1/2 Lb. 20c; 1 Lb. 35c.

PUMPKINS

One Pkt. will sow 8 hills; 1 Ounce 24 hills.

502 Connecticut Field (120 days)—Heaviest producer. Big, yellow pumpkins that weigh 15 to 25 pounds. Thick, sweet, fine-grained flesh.

Pkt. 10c; 1 Oz. 15c; 1/4 Lb. 35c; 1 Lb. \$1.00.

503 Small Sugar Pie (115 days)—Weigh 4 pounds. What delicious pies you get from its rich golden-orange flesh, thick, sweet, finest flavor.

Pkt. 10c; 1 Oz. 15c; 1/4 Lb. 42c; 1 Lb. \$1.25.

PEAS

Contain vitamins A, B₁, C, G, P.P., calcium, Phosphorus, Iron

One Pkt. will sow 15 feet; 1 Lb., 100 feet.

All of these Peas grow only around 18 inches tall and do not have to be supported. When you order Peas be sure and include 15c for a packet of Nitratin to inoculate the Pea and Bean seed. 1 Pkt. is enough for 3 to 4 pounds of seed.

POSTPAID PRICES ON ALL PEAS

Large Packet 10c 1/2 Lb. for 20c 1 lb. for 36c

492 American Wonder (60 days)—A popular early pea. A good bearer of tender, sweet flavored peas. Grow only 12 to 15 inches tall.

***490 New Alaska** (54 days)—This is the kind to plant for those first Peas from your garden. This is an improved strain with larger pods, better flavor and very productive. Smooth seeded, it can be planted very early.

***491 Fillbasket** (60 days)—One of the earliest large podded semi-wrinkled peas. Sturdy vines bear an abundance of dark green pods, filled with good quality peas.

***495 Little Marvel** (62 days)—Our most popular wrinkled variety and the most satisfactory kind in the average home garden. It is very hardy and can be planted almost as early as New Alaska. Very productive, the pods are filled from end to end with the delicious, tender peas.

494 Laxton's Progress (62 days)—The earliest and heaviest yielding of the large podded peas. The pods are very large, with big, plump peas of the finest flavor. Very popular.

901 Freezonian (63 days)—All-America Bronze Medal Winner especially recommended for freezing. Vines are 30 inch, dark and medium heavy with 3 1/2 inch pods filled with large wrinkled peas. Wilt Resistant.

902 Victory Freezer (65 days)—A new variety we are proud to list for freezing and an All-America Bronze Medal Winner. Vines are 29 inch, heavy with double pods 3-3 1/2 inches long. Medium size peas, dark green and wrinkled. Wilt Resistant.

SPINACH

One Packet will sow 35 feet, 1 ounce will sow 100 feet.

513 Mustard Spinach, Tendergreen (25 days)—This green combines the flavors of mustard and spinach. Very prolific, it produces 6 or 7 crops a year.

Pkt. 10c; 1 Oz. 20c.

***511 Nobel's Giant Thick Leaf** (43 days)—Has large dark green crimped leaves, and one of the heaviest yielders. Does not go to seed early.

Pkt. 10c; 1 Oz. 16c; 1/4 Lb. 50c.

512 Savoy Bloomsdale (40 days)—Large, curled, deep green leaves. Plant real early and enjoy early greens.

Pkt. 10c; 1 Oz. 20c; 1/4 Lb. 55c.

RADISHES

Contain Vitamin C and minerals

One Packet will sow 30 feet; 1 Ounce, 100 feet.

Sow every 2 weeks for a continuous supply of fresh radishes all season.

***504 Early Scarlet Globe** (22 days)—By far the most popular real early radish. Bright scarlet, olive-shaped, crisp and tender.

Pkt. 10c; 1 Oz. 15c.

505 French Breakfast (24 days)—Early oblong shaped radish, scarlet with white tip.

Pkt. 10c; 1 Oz. 15c.

***507 New Crimson Giant** (28 days)—A rather new red radish that is fast becoming the most popular of all radishes. It is a large round radish being about 1½ inches in diameter when fully grown. Deep crimson in color with white flesh that is very crisp and tender, and stays that way longer than any other red radish we know. Do not sow seed too thickly.

Pkt. 10c; 1 Oz. 15c.

***508 White Icicle** (27 days)—Everybody likes this long, snow-white radish. It is very mild, crisp and tender and stays that way for a long time.

Pkt. 10c; 1 Oz. 15c.

SQUASH

Contains vitamins A, B₁ and G, also Calcium and Iron.

528 Acorn, Table Queen (58 days)—Weighs about 1 pound, just the right size to cut in half for serving. Dark green hard shell, rich orange-yellow flesh, fine flavor. Large producer.

Pkt. 10c; 1 Oz. 20c.

527 Chicago Warty Hubbard (115 days)—Dark green, warty, and deep orange-yellow flesh. Weighs about 16 pounds. The best winter squash.

Pkt. 10c; 1 Oz. 23c.

530 Uconn—Gold Medal winner for 1950, dual purpose squash. Immature fruits can be served in growing season, later fruits for winter use. It has a rich, meaty, delicious flavor, keeps a long time. Plant needs only a space of 3x3 feet.

Pkt. 10c; 1 Oz. 35c.

531 Striped Cushaw (115 days)—Fruits are crooknecked, very large and irregularly green striped. Thick, sweet, light yellow flesh. Very prolific.

Pkt. 10c; 1 Oz. 20c.

TOMATOES

Contain vitamins A, B₁, C, G, P. P., and minerals

522 Burpee's Hybrid (70 days)—Fruits are medium to large, average 8 ounces in weight, deep globular in shape, flesh is meaty and scarlet-red in color and decidedly rich in flavor. It is a great producer and a valuable tomato for the home garden.

Pkt. (30 seeds) 35c; 3 Pkts. 90c; 5 Pkts. \$1.45

514 Earliana (66 days)—A widely planted extra early variety. Medium size, bright red fruits.

Pkt. 10c; ½ Oz. 30c; 1 Oz. 50c.

516 Giant Ponderosa (88 days)—Our selected strain produces fruit of immense size and smoother than most others. Fruits have few seeds, are very solid and have a fine flavor.

Pkt. 10c; ½ Oz. 35c; 1 Oz. 55c.

524 Jubilee (72 days)—A new and different tomato that should have a place in your garden. The large orange-yellow skinned fruits are a novel in appearance. It has small seed cavities and a non-acid wonderful flavor.

Pkt. 10c; ½ Oz. 75c.

***519 Marglobe** (77 days)—A heavy yielder of large, smooth, deep red, globe-shaped tomato with thick, firm meat. Fine for canning and slicing. Resistant to wilt and nail-head rust.

Pkt. 10c; ½ Oz. 20c; 1 Oz. 30c.

***523 Rutgers** (77 days)—Most widely planted of all tomatoes. Bright scarlet, meaty fruits are fine for slicing and canning. Ripens from the inside out. Fine quality. Very heavy producer. Resistant to wilt and nail-head rust.

Pkt. 10c; ½ Oz. 20c; 1 Oz. 35c.

TURNIPS

Contain vitamins C and Calcium. Turnip top greens contain A, B₁, C, G, P.P., Calcium, Phosphorus, Iron.

One Packet sows 40 feet, 1 Oz. 200 ft. To get largest yield, broadcast turnip seed thinly instead of planting in rows.

533 Purple Top Strap Leaf—Flat, medium sized roots, purple topped, fine grained and mild.

Pkt. 10c; 1 Oz. 16c.

***534 Purple Top White Globe**—Most widely planted turnip. Globe-shaped and white, tender flesh. Very mild in flavor.

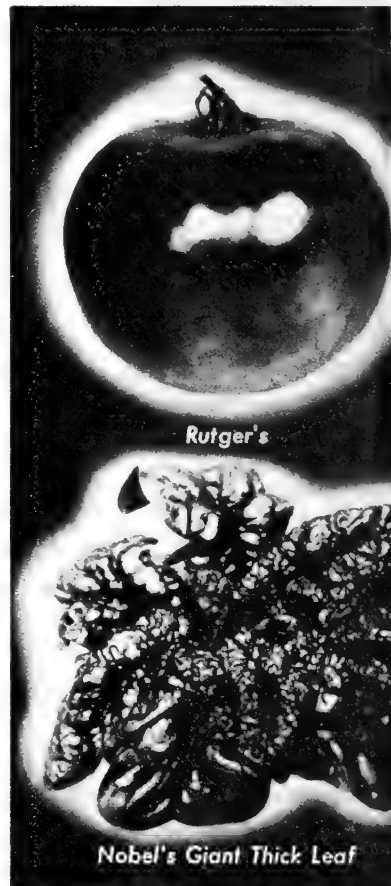

Pkt. 10c; 1 Oz. 16c.

"NO-SEED"

FOR TOMATOES

Grow Earlier, Larger, Sweeter, and More Tomatoes on each plant with "NO-SEED," an approved plant hormone that's easy to use. Just mix with water and spray newly opened blossoms. "NO-SEED" induces artificial setting of fruit, prevents falling of first blossoms, gives ripe tomatoes 2 to 4 weeks earlier. Treated plants produce larger, firmer, meatier fruits, with fewer seeds. Grow seedless peppers, egg plant, cukes, squash. Tested by U.S.D.A., leading Universities, Colorado Experiment Station. 4-oz. bottle (for 1-gal. spray) ppd. \$1.00, pint (makes 4 gals. spray) ppd. \$2.00.

Rutgers

Nobel's Giant Thick Leaf

USEFUL VEGETABLES TO ROUND OUT YOUR GARDEN

563 Brussel Sprouts, Long Island—Thickly set stems with solid cabbage-like balls. Contains A, B₁, C, Calcium, Phosphorus and Iron.

Pkt. 10c.

433 Cauliflower, Early Snowball—The most widely planted early variety. Compact snow-white heads. A fine home garden variety.

Pkt. 10c.

457 Dill—The common dill pickle herb.

Pkt. 10c.

458 Egg Plant, Black Beauty—The thick smooth rich purple fruits are very early.

Pkt. 10c.

459 Endive, Green Curled—Delicious for autumn and winter salads. Frost improves its quality and flavor. Contains A, C, G, Calcium and Iron.

Pkt. 10c; 1 Oz. 22c.

457A Gherkin, West Indies—Small oval shaped prickly cucumber, fine for small pickles.

Pkt. 10c; ½ Oz. 20c.

461 Kohlrabi, Early White—Best for home use, has mild, crisp and tender flesh, dwarf.

Pkt. 10c.

468 Mustard, Giant Southern Curled—Long and wide leaves with curled edges for greens. Contains A, B₁, G, PP, Calcium, Phosphorus and Iron.

Pkt. 10c; 1 Oz. 18c.

525 Salsify, Mammoth Sandwich Island—A delicious, nutritious vegetable with a decided oyster flavor. Keeps in ground over winter but must be dug before spring growth starts.

Pkt. 10c.

***423 Swiss Chard, Lucullus**—The most commonly grown chard. It is of the beet family but is grown for its leaves only, which make very fine greens.

Pkt. 10c; 1 Oz. 20c.

Tuberous Begonias

When you see these beautiful Tuberous Begonia flowers, you will wish that you had ordered more. No other flower can equal them for sheer exquisite beauty. They are widely used as pot plants for winter bloom indoors. For a shady spot outdoors nothing else will bring such a magnificent display of color. A bed of them will provide a continuous supply of flowers from early summer until frost. These are the double, Camellia type blooms, even larger than pictured, of perfect form and carried erect on strong stems. The flowers are simply perfect for bowl or saucer use. Used for a luncheon or party, they will make you an envied hostess.

These are choice selected bulbs, imported from Belgium, a size that we have found to be the most satisfactory. Smaller bulbs can be sold cheaper but they are not as good. With each order we send instructions for growing them both indoors and outdoors. POSTPAID.

Inter-State's New Superior Phlox

These are the newer, better Phlox with flowers much larger than pictured. Very popular because they bloom so freely right through summer's heat. Grow in sun or part shade, around 30 inches tall. Perfectly hardy, come up year after year. Cut off old flower heads when through blooming and new ones will form for fall bloom. Plant 10 to 12 inches apart.

M 508 Blue Boy—The nearest blue.

M 514 Bright Eyes—Very lovely light pink with red eye. Very large.

M 524 Charles Curtis—A vivid flame.

M 525 Mary Louise—The finest white.

M 512 Pink Charm—Heads are almost a foot long, bright pink tinged scarlet.

M 511 Salmon Beauty—Big flowers of exquisite salmon-rose with white eye.

M 522 San Antonio—A rich ruby-red that is outstanding. Very large.
